Re: Review of the Capitol Power Plant Application

Dear Mr. Potter,

The United States Environmental Protection Agency (EPA) has reviewed your Plantwide Applicability Limit permit application for the Capitol Power Plant, located in Washington, D.C., that was received by EPA on April 4, 2012, including supporting documentation, and determined that as of May 2, 2012 your application is complete. Although your application has been deemed complete, in the course of this review we may identify further information that will be essential to enable EPA to continue processing your application and make a permit decision, including information that may be needed in response to public comments.

If you have any questions please contact Mr. Mike Gordon at 215-814-2039. His email address is gordon.mike@epa.gov.

Sincerely,

A handwritten signature in black ink that reads "Diana Esher". The signature is written in a cursive, flowing style.

Diana Esher, Director
Air Protection Division
