I. PRELIMINARY STATEMENT

1. This Order for Compliance and Information Requirement (“Order and Requirement”) are issued to Donald Martin (“Respondent”) under the authority vested in the Administrator of the Environmental Protection Agency (hereinafter "EPA") under Section 308 of the Clean Water Act (“CWA” or “the Act”), 33 U.S.C. § 1318 and Section 309(a) of the CWA, 33 U.S.C. § 1319(a). The Administrator has delegated this authority to the Regional Administrator of Region III, who in turn has delegated it to the Director of the Water Protection Division of Region III.

II. STATUTORY AND REGULATORY AUTHORITY

2. Section 301(a) of the Act, 33 U.S.C. § 1311(a), prohibits the discharge of any pollutant (other than dredged or fill material) by any person from a point source into waters of the United States except in compliance with a permit issued pursuant to the National Pollutant Discharge Elimination System (“NPDES”) program under Section 402 of the Act, 33 U.S.C. § 1342.
3. Point Source is defined at 40 C.F.R § 122.2 as any discernable, confined, and discrete conveyance, including but not limited to, any pipe, ditch, channel, tunnel, conduit, well, discrete fissure, container, rolling stock, concentrated animal feeding operation, landfill leachate collection system, vessel or other floating craft from which pollutants are or may be discharged.

4. EPA is authorized under Section 308 of the CWA, 33 U.S.C. § 1318, to require owners and operators of point sources to establish records and make such reports as may be necessary to carry out the purpose of the Act, including but not limited to:
 - a. Developing or assisting in the development of any effluent limitation, or other limitation, prohibition, effluent standard, pretreatment standard, or standard of performance under the Act;
 - b. Determining whether any person is in violation of any such effluent limitation, or other limitation, prohibition or effluent standard, pretreatment standard, or standard of performance;
 - c. Any requirement under Section 308 of the CWA; and,
 - d. Carrying out Sections 305, 311, 402, 404, and 504 of the CWA.
5. Section 402(a) of the CWA, 33 U.S.C. § 1342(a), provides that the Administrator of EPA may issue permits under the NPDES program for the discharge of pollutants from point sources to waters of the United States. The discharges are subject to specific terms and conditions as prescribed in the permit.
6. “Concentrated animal feeding operation” or “CAFO” is defined by 40 C.F.R. § 122.23(b)(2) as an animal feeding operation that is defined as a Large CAFO or Medium CAFO in accordance with 40 C.F.R. § 122.23(b), or that is designated as a CAFO in accordance with 40 C.F.R. § 122.23(c).
7. Pursuant to 40 C.F.R. § 122.23(d)(1), the owner or operator of a CAFO must seek permit coverage under an NPDES permit if the CAFO discharges.
8. Pursuant to section 402(b) of the Act, 33 U.S.C. § 1342(b), EPA authorized the Pennsylvania Department of Environmental Protection (“DEP”) to issue NPDES permits in 1978. In 1991, EPA authorized DEP to issue General NPDES Permits.
