WV 33 CSR 20**

TITLE 33
LEGISLATIVE RULE
DIVISION OF ENVIRONMENTAL PROTECTION
OFFICE OF WASTE MANAGEMENT

SERIES 20
HAZARDOUS WASTE MANAGEMENT RULE

§33-20-1. Scope and Authority.

1.1. Scope and Purpose. -- The purpose of this rule is to provide for the regulation of the generation, treatment, storage, and disposal of hazardous waste to the extent necessary for the protection of the public health and safety and the environment.

1.2. Authority. -- This rule is promulgated pursuant to the West Virginia Hazardous Waste Management Act, W. Va. Code, §22-18-1, et seq.

1.3. Filing Date. -- May 4, 1999.

1.4. Effective Date. -- July 1, 1999.

1.5. Amendment of Former Rule. -- This rule amends the Hazardous Waste Management rule, 33 CSR 20, in effect prior to the date this rule becomes effective.

1.6. Incorporation by Reference. -- Whenever either federal statutes or regulations or state statutes or rules are incorporated by reference into this rule, the reference is to that statute or regulation in effect on July 1, 1997, unless otherwise noted in the text of this rule. This incorporation by reference is not intended to replace or abrogate federal authorities granted the Resource Conservation and Recovery Act of 1976.

1.6.a. In applying the federal requirements incorporated by reference throughout this rule, the following exceptions or substitutions apply, unless the context clearly requires otherwise or the referenced rule cannot be delegated to the state:

1.6.a.1. "Office of waste management, West Virginia division of environmental protection"

shall be substituted for "environmental protection agency."

1.6.a.2. "Chief of the office of waste management, West Virginia division of environmental protection" shall be substituted for "administrator," "regional administrator," and "director." In those sections that are not adopted by reference or that are not delegable to the state, "administrator", "regional administrator", and "director" shall have the meaning defined in 40 CFR § 260.10.

1.6.a.3. Whenever the regulations require publication in the "Federal Register" compliance shall be accomplished by publication in the "West Virginia Register," a part of the "State Register" created pursuant to the provisions of W. Va. Code, §29A-2-2 for those areas applicable and delegable to the state.

1.6.a.4. Whenever in the federal regulation reference is made to the Resource Conservation and Recovery Act of 1976 § 3010, as amended (42 U.S.C. § 6930), the reference should be to section 4 of this rule. The notification requirements of the Resource Conservation and Recovery Act of 1976 §§ 3010 remain in effect and will be satisfied by compliance with section 4 of this rule.

1.7. Cross Reference. --Whenever a reference is cited in a provision incorporated by reference which cross reference was not incorporated by reference, the provisions of the applicable state law and rules, if any, control to the extent of any conflict or inconsistency. Where state rules are present and there is a question, the state rules govern. Where there are no state regulations present, federal regulations govern. For example, cross reference to

40 CFR part 264 subpart O -- Incinerators, which was not incorporated by reference, would need to be referenced to the applicable West Virginia division of environmental protection, office of air quality rule, 45 CSR 25, "To Prevent and Control Air Pollution from Hazardous Waste Treatment, Storage, or Disposal Facilities."

1.8. Inconsistencies with the West Virginia Code. -- In the event a provision of the code of federal regulations incorporated by reference herein includes a section which is inconsistent with the West Virginia Code, the West Virginia Code controls to the extent federal law does not preempt the state law. In the event a provision of the code of federal regulations incorporated by reference herein is beyond the scope of authority granted the division of environmental protection pursuant to statute, or is in excess of the statutory authority, such provision shall be and remain effective only to the extent authorized by the West Virginia Code.

1.9. Provisions Applied Prospectively. -- The provisions of this rule are to be applied prospectively. All orders, determinations, demonstrations, rules, permits, certificates, licenses, waivers, bonds, authorizations and privileges which have been issued, made, granted, approved or allowed to become effective by the chief, and which are in effect on the date this rule becomes effective, shall continue in effect according to their terms unless modified, suspended or revoked in accordance with the law.

§ 33-20-2. Hazardous Waste Management System: General.

2.1.a.1. "Full regulation" means those rules applicable to generators of greater than one

thousand (1000) kilograms of non-acutely hazardous waste in a calendar month and/or who treat, store or dispose of hazardous waste at their facility.

2.1.a.2. "Mercury containing lamp" means an electric lamp in which mercury is purposely introduced by the manufacturer for the operation of the lamp. Mercury containing lamps commonly include fluorescent lamps.

2.1.a.3. "Universal Waste" means any of the following hazardous wastes that are managed under the universal waste requirements of 40 CFR part 273:

(1) Batteries as described in 40 CFR § 273.2;

(2) Pesticides as described in 40 CFR § 273.3; and

(3) Thermostats and mercury containing lamps as described in 40 CFR § 273.4.

2.2. 40 CFR § 260.2. -- The provisions of 40 CFR § 260.2 are excepted from incorporation by reference. Availability of information provided under this rule is controlled by the provisions of W. Va. Code, §22-18-12.

2.4. Petitions for Waste Exclusions.

2.4.a. Persons desiring to exclude a waste at a particular generating facility from the lists set forth in 40 CFR part 261 may petition the chief for such an exclusion after having received approval from the administrator of the environmental protection agency. The petition shall include:

2.4.a.1. A copy of the petition submitted to the administrator of the environmental protection agency pursuant to 40 CFR § 260.22, including all demonstration information;

2.4.a.2. A copy of the administrator's approval granting the exclusion pursuant to 40 CFR § 260.20(d); and

2.4.a.3. Any other additional information which may be required for the chief to evaluate the petition.

2.4.b. Within one hundred and twenty (120) days of the filing of the petition the chief shall decide whether to approve or to deny the petition and so advise the petitioner. Where a decision to deny a petition is made, the chief shall notify the petitioner of such action in writing, setting forth the reasons therefor.

2.4.c. The chief shall not deny a petition to exclude a waste at a particular facility that has been approved by the administrator unless scientifically supportable reasons for such denial are advanced which had not been presented to the administrator.

2.5. Petitions to amend the regulations to include additional wastes as universal wastes.

2.5.a. Persons desiring to include a waste as a universal waste may petition the chief for such an inclusion after having received approval from the administrator of the environmental protection agency. The petition shall include:

deny a petition is made, the chief shall notify the petitioner of such action in writing, setting forth the reasons therefor.

2.5.c. The chief shall not deny a petition to include a waste as a universal waste that has been approved by the administrator unless scientifically supportable reasons for such denial are advanced which had not been presented to the administrator.

2.5.d. Any person may petition the chief to include a waste as a universal waste as follows:

2.5.d.1. Submit a petition to the chief demonstrating that the regulation under the universal waste regulations of 40 CFR part 273 is appropriate for the waste or category of waste; will improve management practices for the waste or category of waste; and will improve implementation of the hazardous waste program. The petition should also include information required by 40 CFR § 260.20(b), and include as many of the factors listed in 40 CFR § 273.81 as are appropriate for the waste or category of waste addressed in the petition.

2.5.d.2. The chief will grant or deny a petition using the factors listed in 40 CFR § 273.81. The decision will be based on the weight of evidence showing that regulation under 40 CFR part 273 is appropriate for the waste or category of waste, will improve management practices for the waste or category of waste, and will improve implementation of the hazardous waste program.

2.5.d.3. The decision of the chief shall be in writing and state the reasons to either grant or deny the petition. Any petitioner aggrieved by the decision of the chief may appeal the decision to the environmental quality board in accordance with the provisions of W. Va. Code §22-18-20.

11.6. Public Notice Requirements at the Application Stage.

11.6.a. Applicability. The requirements of this section 11.6. shall apply to all West Virginia hazardous waste management Part B permit applications seeking initial permits for hazardous waste management units. The requirements of this section shall also apply to hazardous waste management Part B permit applications seeking renewal of permits for such units upon the expiration of the existing permit. The requirements of this section do not apply to permit modifications under 40 CFR 270.42 or permit applications submitted for the sole purpose of conducting post-closure activities or post-closure activities and corrective action at a facility.

11.6.b. Notification. The chief shall provide public notice as required in this section 11.6. when a Part B permit application has been submitted. The chief shall provide public notice to:

11.7. Information Repository

11.7.a. Applicability. The requirements of this section apply to all applications seeking West Virginia hazardous waste management permits for hazardous waste management units.

11.7.b. The chief may assess the need, on a case-by-case basis, for an information repository. When assessing the need for an information repository, the chief shall consider a variety of factors, including: the level of public interest; the type of facility; the presence of an existing repository; and the proximity to the nearest copy of the administrative record. If the chief determines, at any time after submittal of a permit application, that there is a need for a repository, then the chief shall notify the facility that it must establish and maintain an information repository.

11.7.c. The information repository shall contain all documents, reports, data, and information deemed necessary by the chief to fulfill the purposes for which the repository is established. The chief shall have the discretion to limit the contents of the repository.

11.7.d. The information repository shall be located and maintained at a site chosen by the facility. If the chief finds the site unsuitable for the purposes and persons for which it was established, due to problems with the location, hours of availability, access, or other relevant considerations, then the chief shall specify a more appropriate site.

11.7.e. The chief shall specify requirements for informing the public about the information repository. At a minimum, the chief shall require the facility to provide a written notice about the information repository to all individuals on the facility mailing list.

11.7.f. The facility owner/operator shall be responsible for maintaining and updating the repository with appropriate information throughout a time period specified by the chief. The chief may

close the repository at his or her discretion, based on the factors in 11.7.b. of this section.

11.8. Application for a Permit

11.8.a. Any person who requires a permit under this rule shall complete, sign, and submit to the chief an application for each permit required under this rule. Applications are not required for hazardous waste permits by rule pursuant to 40 CFR § 270.60. The chief shall not begin the processing of a permit until the applicant has fully complied with the application requirements for that permit. Permit applications must comply with the signature and certification requirements of 40 CFR § 270.11.

11.8.b. The chief shall review for completeness every application. Each application submitted by a new hazardous waste management, should be reviewed for completeness by the chief within 30 days of its receipt. Each application submitted by an existing hazardous waste management facility (both Part A and Part B of the application), should be reviewed for completeness within 60 days of receipt. Upon completing the review, the chief shall notify the applicant in writing whether the application is complete. If the application is incomplete, the chief shall list the information necessary to make the application complete. When the application is for an existing hazardous waste management facility, the chief shall specify in the notice of deficiency a date for submitting the necessary information. The chief shall notify the applicant that the application is complete upon receiving this information. After the application is completed, the chief may request additional information from the applicant but only when necessary to clarify, modify or supplement previously submitted material. Request for such additional information will not render an application incomplete.

11.8.c. If the applicant fails or refuses to correct deficiencies in the application, the permit may be denied and appropriate enforcement actions may be taken under the applicable statutory provisions of W. Va. Code §22-18-1 et seq.

11.8.d. If the chief decides that a site visit is necessary for any reason in conjunction with the processing of an application, he or she shall notify the applicant and a date shall be scheduled.

11.8.e. The effective date of an application is the date on which the chief notifies the applicant that the application is complete as provided for in 11.8.b. of this section.

11.8.f. For each application the chief shall, no later than the effective date of the application, prepare and mail to the applicant a project decision schedule. The schedule shall specify target dates by which the chief intends to:

However, permits may only be modified, revoked and reissued, or terminated for the reasons specified in 40 CFR §§ 270.41 or 270.43. All requests shall be in writing and shall contain facts or reasons supporting the request.

11.9.b. If the chief decides the request is not justified, he or she shall send the requester a brief written response giving a reason for the decision. Denials of requests for modification, revocation and reissuance, or termination are not subject to public notice, comment, or hearings. Denials by the chief may be appealed to the Environmental Quality Board in accordance with section 15 of this rule.

11.9.b.1. If the chief tentatively decides to modify or revoke and reissue a permit under 40 CFR §§270.41 or 270.42 (c), he or she shall prepare a draft permit under section 11.10. incorporating the proposed changes. The chief may request additional information and, in the case of a modified permit, may require the submission of an updated application. In the case of a revoked and reissued permit, the chief shall require the submission of a new application.

11.9.b.2. In a permit modification under this section, only those conditions to be modified shall be reopened when a new draft permit is prepared. All other aspects of the existing permit shall remain in effect for the duration of the unmodified permit. When a permit is revoked and reissued under this section, the entire permit is reopened just as if the permit had expired and was being reissued. During any revocation and reissuance proceeding the permittee shall comply with all conditions of the existing permit until a new final permit is reissued.

11.9.b.3. "Classes 1 and 2 Modifications" as defined in 40 CFR §270.42 (a) and (b) are not subject to the requirements of this section.

11.9.c. If the chief tentatively decides to terminate a permit under 40 CFR § 270.43, he or she shall issue a Notice of Intent to Terminate. A Notice of Intent to Terminate is a type of draft permit which follows the same procedures as any draft permit prepared under section 11.10.

Consult the rules of the office of air quality.

11.10. Draft Permits.

11.10.a. Once an application is complete, the chief shall tentatively decide whether to prepare a draft permit or to deny the application.

A Notice of Intent to Deny the permit application is a type of draft permit which follows the same procedures as any draft permit prepared under this section. If the chief's final decision is that the tentative decision to deny the permit application was incorrect, he or she shall withdraw the Notice of Intent to Deny and proceed to prepare a draft permit.

11.10.c. If the chief tentatively decides to issue a permit, he or she shall prepare a draft permit that contains the following information:

The fact sheet shall briefly set forth the principal facts and the significant factual, legal, and methodological and policy questions considered in preparing the draft permit. The chief shall send the fact sheet to the applicant and, on request, to any other person.
