Subject: Submittal of Authorization Revision Application

Dear Mr. Welsh:

Enclosed are the documents that comprise the current submittal of the West Virginia Department of Environmental Protection's (WVDEP) RCRA Program Authorization Application Package that our respective staffs have been working on to update the authorization status of the West Virginia Hazardous Waste Program. This Authorization Application Package covers a variety of regulatory areas. Unquestionably, authorization for the RCRA Corrective Action Program stands out as the cornerstone of this particular submittal.

The enclosed application submittal documents include the following:

- Program Description Addendum
- Signed Office of Legal Services Statement
- Signed Memorandum of Agreement between WVDEP, WVPSC, and WVDOH
- Signed Memorandum of Understanding between two WVDEP divisions; the Division of Land Restoration and the Division of Water and Waste Management
- State Regulations and Checklists

We anticipate the placement of this application in an upcoming Federal Register. We request that, once the authorization process is complete, you return three fully signed copies of the MOA to us for distribution to our participating agencies, the Public Service Commission and the Division of Highways. If any last minute issues arise, however, please contact me at 304 558 5989 or by email at mdorsey@dep.state.wv.us.

Sincerely,

H. Michael Dorsey  
Assistant Director
