

Webinar I: *What is the Climate-Waste Prevention Connection?*

June 4, 2009 1:30 – 3:30

- **Materials Management the Untapped Approach to Reducing GHG Emissions**
Joshuah Stolaroff - EPA Office of Solid Waste and Emergency Response, Center for Program Analysis
- **Northeast States Climate - Waste Action Plans**
Lynn Stoddard - Connecticut Department of Environmental Protection
- **Local Communities Experience: Incorporating Waste Reduction into Climate Action Plans**
Robert McCoy - Maplewood NJ
- **Local Communities Experience**
Eric Weiss – Hilltown Resource Management Cooperative

Webinar II: *Making Materials Management Count: Tools & Techniques*

June 24, 2009 1:30 – 3:30

- **GHG Inventories: Understanding Role of Materials**
David Allaway, Oregon DEQ
- **We Manage What We Measure: EPA's Waste Reduction Model**
Sara Hartwell, EPA Office of Resource Conservation and Recycling – Targeting communities using WARM
- **ICLEI Approach for Measuring Waste Management**
Courtney Forrester, ICLEI
- **"Recycle or Die" Keene, New Hampshire**
Duncan Watson, Assistant Director of Public Works Keene NH
Northeast Forum on Climate and Waste Connections

Webinar III: *Working Together: Reducing GHG through Materials Management*

July 23, 2009 1:30 – 3:30

- **Beyond Waste: A Sustainable Materials Management Strategy for New York**
Resa Dimino, New York State Department of Environmental Conservation
- **NEWMOA Climate-Waste Action Plan to Support State Efforts**

Terri Goldberg, Northeast Waste Management Officials' Association
Sarah Weinstein, Deputy Assistant Commissioner, Bureau of Waste
Prevention, MA DEP

- **West Coast Forum: What can we learn**
Vicky Salazar, Region 10 EPA

David Allaway	Oregon Department of Environmental Quality	David Allaway is a senior policy analyst at the Oregon Department of Environmental Quality. He coordinates DEQ's Waste Prevention Strategy (the "reduce, reuse" part of "reduce, reuse, recycle") and is the Solid Waste Program's lead staff on greenhouse gas, energy, and life cycle analysis related issues. In 2004, he chaired the Technical Subcommittee on Materials and Waste for Governor Kulongoski's Advisory Group on Global Warming. David's current projects include an evaluation of the life-cycle greenhouse gas emissions associated with materials consumed in Oregon; development of a methodology for estimating consumption-related greenhouse gas emissions at the community scale; an environmental screening of waste prevention practices in residential construction; life cycle analysis of drinking water delivery systems; and participation in the Steering Committee of Wal-Mart's Packaging Sustainable Value Network.
Sara Hartwell	EPA Office of Resource Conservation and Recovery	Sara works in EPA's Office of Resource Conservation and Recovery on recycling and waste reduction issues. She is an analytical chemist, and has worked in environmental toxicology, hazardous waste methods development, flexible packaging R&D, as well as MSW recycling. Her work focuses on helping companies, trade associations, local governments and individuals estimate the energy and climate impact of package design alternatives, purchasing decisions, and waste management alternatives. The primary tools used for those estimates are the Waste Reduction Model (WARM), the Recycled Content Tool (ReCON), and the Greenhouse Gas Equivalencies Calculator. She is currently engaged in an effort of update the WARM and ReCON Life Cycle Inventory data for a number of materials related to packaging applications (plastics, paper & corrugated cardboard, aluminum, steel and glass).
Bob McCoy	Maplewood, New Jersey	Bob McCoy has been a resident of Maplewood, New Jersey for 15 years. He is the Chair of the Maplewood Environmental Advisory Committee, an official municipal advisory committee established by ordinance and appointed by the Maplewood Township Committee. He has been a member of the Environmental Advisory Committee since 2004 and its chair since 2005. Mr. McCoy has an undergraduate degree in economics from Swarthmore College and a Masters of Engineering degree from Stevens Institute of Technology. He most recently worked in the development of manufacturing process for a pharmaceutical device company. He is currently a stay-at-home parent with a high school daughter and middle school son.
Lynn Stoddard	Connecticut Department of Environmental Protection	Lynn Stoddard has worked for the CT Department of Environmental Protection since 1986 in the areas of coastal management, recycling, solid waste planning, and pollution prevention. Lynn currently works on DEP's Climate and Energy Team. Her work focuses on

		<p>implementation of the CT Climate Change Action Plan and education on climate change impacts and solutions. She leads the inter-agency Climate Change Coordinating Committee, which provides staff support to the Governor's Steering Committee on Climate Change. She also leads the CT Climate Change Education Committee. Lynn has Bachelor's degree from Bucknell University and a Master's degree in Regional Planning from the University of Pennsylvania. Lynn was a member of the inaugural class of the Donella Meadows Leadership Fellows Program, which trains environmental and social leaders in systems thinking and organizational learning.</p>
Joshua Stolaroff	EPA Office of Solid Waste and Emergency Response	<p>Josh is currently a Science and Technology Policy Fellow for the American Association for the Advancement of Sciences, working in EPA's Office of Solid Waste and Emergency Response (OSWER). He works on climate change issues as they relate to materials management and land management, the primary domains of OSWER. Prior to selection as a AAAS Fellow, Josh was a postdoctoral research fellow in the Climate Decision Making Center at Carnegie Mellon University, where his research included climate and energy policy and development of technology to capture atmospheric CO2. He holds a dual PhD in Civil & Environmental Engineering and Engineering & Public Policy from Carnegie Mellon University and a BS in Environmental Engineering Science from the University of California, Berkeley.</p>
Courtney Forrester	ICLEI-Local Governments for Sustainability, Boston MA	<p>Courtney Forrester joined ICLEI in June 2008 and works out of the Northeast/Mid-Atlantic Regional Office in Boston. As a Program Officer, she provides assistance to municipalities in New England as they work to reduce greenhouse gas emissions. Prior to ICLEI, Courtney worked as the Solid Waste Manager for the City of Newton, MA. In this role, she was responsible for solid waste planning and many other city-wide environmental initiatives, including developing an online reusable materials exchange. She has also worked with the City of Cambridge, MA, to assist businesses in developing recycling plans. Originally from Rochester, NY, Courtney has a MS in Environmental Studies from Antioch University New England and a BS in Environmental Science from the University of Delaware. Courtney rows competitively with a club on the Charles River in Boston.</p>
Duncan P. Watson	Assistant Director Public Works City of Keene, NH	<p>Duncan Watson has worked for the City of Keene, NH for 17 years, currently serving as the Assistant Director of Public Works. Among his responsibilities- all solid waste activities for the City of Keene (population 23,000) and auxiliary services for surrounding communities with a combined population of 70,000. Management responsibility of the following: operation of 30 ton per day capacity materials recovery facility including recycling drop-off facility that serves 15,000 vehicles per year, 125 ton per day transfer station, construction and demolition debris recycling center, landfill post-closure monitoring, landfill gas to energy project (providing all power needs for recycling facility), composting City collection/public drop-off of over 8,000 cubic yards of leaves and yard trimmings and other source separated organics, backyard compost bin wholesale program, permanent household hazardous waste collection facility and public education /awareness.</p>

Duncan received his M.S. Resource Management & Administration Antioch New England Graduate School B.S. Business Administration University of New Hampshire

Resa A. Dimino	New York Department of Environmental Conservation	<p>Resa Dimino is a special assistant in the Commissioner's Policy Office of the New York State Department of Environmental Conservation. She focuses on solid waste and recycling policy. Most recently, Ms. Dimino served as the Director of Programs for the Bronx River Alliance in the Bronx, NY. Prior to that, she served as the Environmental Analyst for Bronx Borough President Adolfo Carrion, Jr., and his predecessor, Fernando Ferrer.</p> <p>Ms. Dimino holds a Bachelor of Arts from Dickinson College in Carlisle, Pennsylvania. She held a gubernatorial appointment to the New York State Solid Waste Management Board</p>
Terri Goldberg	Northeast Waste Management Officials' Association (NEWMOA)	<p>Terri joined NEWMOA in 1989 and has directed a wide range of pollution prevention, toxics reduction, solid and hazardous waste, and other projects for the Association. She currently directs NEWMOA's mercury and other toxics reduction programs and activities, pollution prevention initiatives, solid waste projects, and the Climate-Waste Action Plan. She manages the NEWMOA staff and writes and oversees a number of grants and contracts. . Prior to joining NEWMOA, she was an Associate with the consulting firm, Industrial Economics, Inc. for several years, and prior to that, she spent a year at the U.S. EPA Region 1 working on lead reduction initiatives.</p> <p>She has a Master of Science degree from the Harvard School of Public Health with a concentration on environmental health policy. She has an undergraduate degree from Hampshire College with a concentration in environmental science</p>
Vicky Salazar	Region 10	<p>Vicky Salazar has worked at the US EPA, Region 10 since 1995. In her tenure at EPA, she has worked on a variety of issues including lead, PCBs Electronics Stewardship and most recently climate and materials management. Ms. Salazar has both a Master of Business Administration and a Bachelor of Science in Psychology from the University of Washington.</p>
Sarah Weinstein	MA Department of Environmental Protection, Bureau of Waste Prevention	<p>Since 1999, Sarah Weinstein has been a Deputy Assistant Commissioner in MassDEP's Bureau of Waste Prevention. She coordinates policy development on a wide variety of pollution control and prevention issues, and oversees Bureau strategic planning and communications. In previous positions at MassDEP, Ms. Weinstein directed the Division of Planning and Program Development in the Bureau of Waste Site Cleanup, and chaired the Board that licenses "LSPs", private sector experts in site assessment and cleanup. Ms. Weinstein holds a B.A. from the University of Pennsylvania, and has done graduate work in community planning at the University of Rhode Island.</p>
