Deciding to Use Orthophosphate

The Technical Expert Working Group
In February 2004, this group was formed to coordinate research on lead corrosion and evaluate different lead control strategies.

The Group includes representatives of:
- WASA
- Washington Aqueduct
- D.C. Dept. of Health
- U.S. EPA
- Centers for Disease Control
- Arlington County, VA
- Falls Church, VA
and industry consultants.

The Washington Aqueduct
And Its Wholesale Customers

Research/Makes recommendations
Independent review

Peer Review Panel
Made up of outside drinking water experts

The Washington Aqueduct
Adds Orthophosphate

The Peer Review Panel recommends Orthophosphate.

The Washington Aqueduct requests regulatory approval.

EPA Region III grants regulatory approval.

The Washington Aqueduct adds orthophosphate.
