RE: Rotary Drilling Supply, Inc.  
Crystal City, Missouri  
EPA Docket No.: RCRA-07-2011-0026

Dear Mr. Coleman:

The U.S. Environmental Protection Agency (EPA) has completed its review of the Long-Term Work Plan (LTWP), submitted on November 21, 2014 and revised on January 16, 2015, February 11, 2015, June 12, 2015, and July 8, 2015 for the Rotary Drilling Supply, Inc. Site, Crystal City, Missouri. The LTWP was prepared by SCI Engineering (SCI), 650 Pierce Boulevard, O'Fallon, Illinois on behalf of Rotary Drilling Supply, Inc., for the purpose of complying with the Resource Conservation and Recovery Act (RCRA) Section 7003 Administrative Order on Consent (AOC) filed May 28, 2014 (EPA Docket No.: RCRA-07-2012-0028). The purpose of the review was to determine if the submitted document fulfilled the Order requirements as well as other applicable State, Federal and EPA guidelines.

The LTWP appears to have met the requirements to abate the impacts due to disposal of Coal Combustion Residuals (CCR) at the Site. Pursuant to Paragraph 62, the EPA approves of the Long-Term Work Plan dated November 21, 2014 and revised on January 16, 2015, February 11, 2015, June 12, 2015, and July 8, 2015.
