Mr. Darriel Coleman
President
Rotary Drilling Supply, Inc.
P.O. Box 302
Festus, Missouri 63028

RE: Rotary Drilling Supply, Inc.
Crystal City, Missouri
EPA Docket No.: RCRA-07-2011-0026

Dear Mr. Coleman:

The U.S. Environmental Protection Agency (EPA) has completed its review of the Short-Term Work Plan (STWP), submitted on December 12, 2014 and revised on January 13, 2015 for the Rotary Drilling Supply, Inc. Site, Crystal City, Missouri. The STWP was prepared by SCI Engineering (SCI), 650 Pierce Boulevard, O'Fallon, Illinois on behalf of Rotary Drilling Supply, Inc., for the purpose of complying with the Resource Conservation and Recovery Act (RCRA) Section 7003 Administrative Order on Consent (AOC) filed May 28, 2014 (EPA Docket No.: RCRA-07-2012-0028). The purpose of the review was to determine if the submitted document fulfilled the Order requirements as well as other applicable State and EPA guidelines.

The STWP meets the requirements to maintain appropriate soil erosion and sediment controls to prevent the further migration of Coal Combustion Residual (CCR) related contaminants off-site until a Long-Term Work Plan is approved. Pursuant to Paragraph 62, the EPA approves of the Short-Term Work Plan dated December 12, 2014 and revised on January 13, 2015. If you have any questions, please contact me at (913) 551-7641 or via email at moran.nicole@epa.gov.

Sincerely,

Nicole Moran
