MISSOURI HOUSE OF REPRESENTATIVES

**Bill Otto**  
State Representative  
District 70

February 9, 2016

Mark Hague  
U.S. Environmental Protection Agency  
11201 Renner Blvd  
Lenexa, KS 66219

Dear Mr. Hague:

Thank you for your letter of February 3 regarding the making of a decision on the final remedy for the West Lake Landfill Superfund Site.

In the letter you indicated that you are "committed to broadening our understanding of the public's perspective on the process". With this in mind, would you please address the following questions?

Will this dialog have bearing on your remedy of the landfill?

What outcome can the public expect from these discussions?

Why was this process begun less than 11 months from when we have been told the remedy will be announced?

Will the meeting outcome and the members be announced before, during or after these dialogs occur?

Has this process ever been used in a similar platform before?

Sincerely,

A handwritten signature in blue ink that reads "Bill Otto".

Bill Otto  
State Representative  
District 70
