Mayor Edward F. Gill
City Hall
Woburn, Mass.

Dear Mayor Gill:

Enclosed you will find a report from the Health Inspector, Edward App, pertaining to the barrels off of Olympia Avenue. As you can see, this department has not let the matter lay dormant. We were unable to remove the barrels as the access road was shut off to everyone. I would like to know who or what department gave permission to have this road open, as no one seems to know.

As of this date, 128 Realty Trust promises to have the road open by tomorrow (September 23, 1971). Mr. Whitney of the Whitney Barrel Co. will then remove all barrels from the property, even though he states he did not put them there and they do not belong to him.

Hoping this meets with your approval, I remain

Very truly yours,

Edward L. McColgan
Chairman
