March 18 - 20, 2009

Mayfly Taxonomy Workshop

Dr. Steven Burian, Southern Connecticut State University

Focusing on Ephemerellidae & Baetidae

Friday, March 20th from 8:30-11:30 AM

Steve will present changes in taxonomy since the latest edition of Merritt & Cummins and provide ways to adapt the existing keys to reflect the recent changes. The presentation part of the workshop will focus on Ephemerellidae and Baetidae, but for the hands-on, identification part of the workshop, attendees are encouraged to bring any problem larval mayfly specimens.

Workshop participants should bring dissecting microscopes, a light source, extension cords, forceps, probes, petri dishes, etc. A limited number of microscopes and supplies will be available for those who cannot bring their own.

A limited number of places will be available for the workshop. Please register with:
