NEAEB 2010

March 17-19

Hotel Viking, Newport, Rhode Island
Hosted by the RI Dept. of Environmental Management

This year, the RIDEM Office of Water Resources is proud to host the 34th Annual Meeting of the New England Association of Environmental Biologists in historic Newport, RI. NEAEB provides a forum to coordinate and improve communications regarding water resource policies, issues and research. The three-day conference brings together those in New England and New York State involved in water resource management, including participants from state and federal agencies, NGOs, the private sector and academia. The 2010 NEAEB meeting will foster impromptu discussion, networking and formal information sharing through a mixture of presentations, including technical workshops as well as plenary, concurrent and poster sessions. We welcome you to Rhode Island, and hope to see you in March!

For more information see: <http://www.epa.gov/region1/neaeb2010/>

Possible conference topics may include:

- Rivers, lakes, estuaries and wetlands
- Water resource management and policy
- Study design, data management and statistics
- Water quality monitoring and assessment
- Outreach: getting science to the public
- State water quality standards and criteria
- Water quantity and stream flow issues
- Invasive species and toxic algae
- Total Maximum Daily Load (TMDL) projects
- Climate change in the Northeast
- Biological indicators and bioassessment methods
- Ecoregional mapping
- Uses of GIS tools and other technologies

Please Save the Dates!

NEAEB will be held partly in conjunction with the annual meeting of the New England Biological Assessment of Wetlands Working Group (NEBAWWG) taking place March 16-17 at the same facility. We hope to offer an overlapping agenda to cover relevant topics in wetland science and policy (such as the National Wetlands Condition Assessment - NWCA) in addition to our traditional schedule of surface water related programming.

A formal call for papers will be released shortly. Please check the NEAEB website for newly posted info!
