RE: Centredale Manor Restoration Project Superfund Site

Dear Russell:

Thank you for your letter dated September 28, 2005. Please be assured that EPA will continue to provide opportunity for review of all data and information generated for this project. EPA maintains and regularly updates the project Administrative Record file which is available for review to all stakeholders. Similar to the August 2004 Baseline Human Health Risk Assessment report, released a year ago, made available for comments to all stakeholders, and subsequently being revised; the Preliminary Remediation Goals report will be similarly available. We welcome your participation and input in this project.

As I am sure you can surmise, substantial thought and discussion went into the planning, data collection, and risk assessments evaluation for this project, including documentation of the issues raised in your September 28, 2005 letter. We are happy to discuss any aspects of the project in further detail. We are looking forward to a collaborative effort with you and other stakeholders. Please call me at 617-918-1232 with any ideas on the implementation of this process.

Sincerely,

A handwritten signature in black ink, appearing to read "Anna F. Krasko".

Anna F. Krasko
Senior Regional Project Manager
