Anna,

I learned recently that the Centredale ROD is close to being signed. I wanted to remind you that we are very interested in pursuing a SJTI project at the site and the timing couldn't be better. As we discussed, SJTI is a job readiness program that is typically timed to coincide with upcoming or ongoing cleanup activities. Training services are provided in response to an anticipated need for additional workers to assist with site cleanup. I hope we can talk more about this soon. Thanks.
