

US EPA ARCHIVE DOCUMENT

Dear Anna Krasko,

Nov. 6,

This is in reference to the Woonasquatucket River proposed cleanup Plan. I am a resident at 770 Mantor Ave. adjacent to Stop & Shop Mkt., for over 40 years.

I attended a meeting 2 years ago at St. Thomas Church basement when this situation started. I requested a test of the area & water from behind the Mkt. & including behind my property.

I was never informed of results.

Due to short notice I wasn't able to attend Nov. meeting at N. Prov.

If & when there is going to be a clean up of the river I strongly feel as a taxpayer & the danger to my health & environment attention should also be focused in my area too.

I have children & grand children who play & picnic in my back yard & it worries me.

My appreciation,
Ann McJannet
