Dear Ann

I am 80 years old Railroad Retiree
My Wife is on Oxygen so I have to
Stay at Home Base

Years Ago the New Haven Railroad
Ran a Line From Olneyville R.I. to Pascoag R.I.

To Kill the Vegetation and Foliage
on this Line They Used a Substance
Like Agent Orange

This Substance Plus the Diesel
Fumes From using High ~~Sulfur~~ Sulfur
Fuel Oil Can Cause Dioxin
Can also Cause CANCER

Centerdale R.I. was on
This Line

I hope I can help you

As Ever

James F McEnery

PS. My address is on the
Enclosed Photo

Mr. James F. McEnery
Mrs. Lillian F. McEnery

CAUSE OF DIOXIN in The
PICTURE SHOW WOONASQUATUATUCKET

CHRIS BURGER evokes the flavor of a winter day in urban New England almost three decades ago with this March 1962 view of New York, New Haven & Hartford's Brayton Avenue yard just west of downtown Providence, R.I. Two usual denizens, a Fairbanks-Morse H15-44 and an Alco switcher, are the major tools with which the New Haven railroad men will toil this day. ■
