Region 4 Virtual Forum on the Partnership for Sustainable Communities

October 26, 2011

Partnership for Sustainable Communities

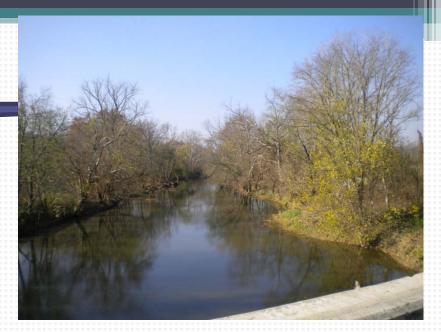

Kentucky Example

Krista Mills, HUD – Louisville Field Office Bernadette Dupont, DOT – FHWA- KY October 26, 2011

Background

Fern Creek is in the Floyd's Fork watershed

- •Floyd's Fork represents 17 miles of the 100 mile planned Louisville Bike/Ped Loop.
- Developers see growth (\$) opportunities

Background

- A new shopping center is planned for Fern Creek area
- Locals want help to prevent urban sprawl and preserve scenic, wildlife areas
- •City of Louisville wanted "Smart Growth" and they needed a Suburban Retrofit Toolbox to address development by right

Background

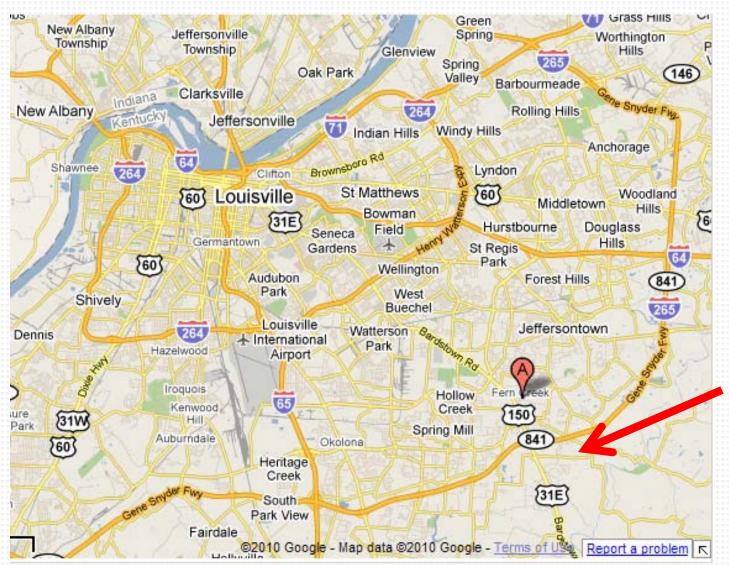

EPA Smart Growth Implementation
 Assistance Award (SGIA) started in 2005

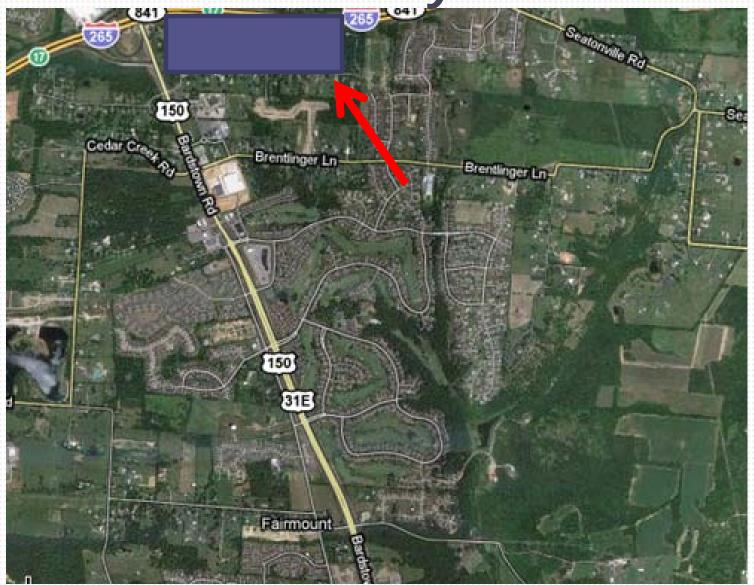

- Louisville Metro received award prior to HUD/EPA/DOT Partnership
- Became one of the 1st
 HUD/DOT/EPA Partnership
 projects!!!
 (2009)

Challenges

Social Equity

Fair Housing

Overcoming N.I.M.B.Y

Sustainable Communities Design Workshop

- 3-day Educational Forum
- October 19-21, 2010
- Consisted Of:
 - Formal presentations
 - Group discussions
 - design, transportation, housing, neighborhoods, environment, open space, economic development, and land use
 - Open design studios
 - University of Kentucky Design School

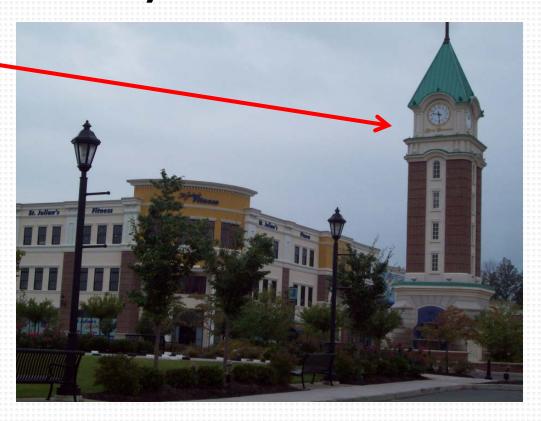

Workshop Step 1: Accept Change

Accept That Change Will Happen – But Help Decide HOW It Will Change

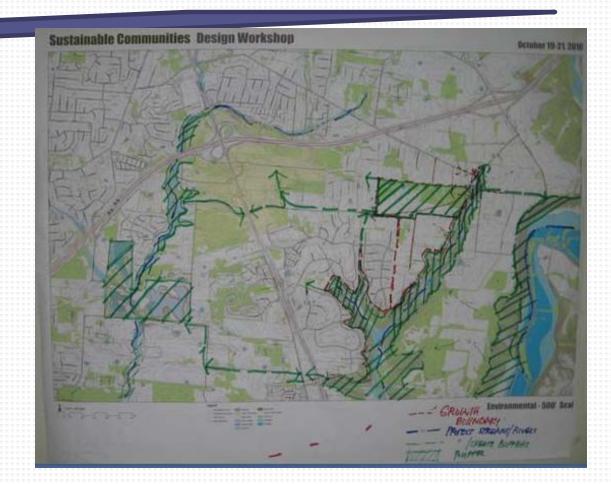

Workshop Step 2. Identify Sustainable CENTER

- Heart of the Community
- Focal Point
- Meeting Place

Workshop Step 3. Identify Growth Boundaries and Preservation Corridors

Workshop Step 4. Use the Tools Available

- Complete Streets
 - Eases Congestion
 - Accommodate all users
 - motorists/transit/bicyclists/pedestrians
- Road Diets
- Access Management
- High Connectivity
 - Means less lanes
- Apply Smart Growth Principles

Lessons Learned:

- What Each Agency Does
- What Programs Each Agency Has
- How We Can Work Together
