Activity	<p><u>Weston/START Submerged Oil Branch Science Group (SOS) Team Activity:</u></p> <p>Temperature Effects Study</p> <ul style="list-style-type: none"> AECOM did not finish observing the last three samples for the temperature effects study. This morning they had realized that they had accidentally set the samples out to dry for UV photos. The samples were re-prepped and will set the 20 hour waiting period for testing on 3/14/12. The remaining samples were put into aluminum pans to dry for photos. Also, fans were put in the garage to help dry out the samples. 				
Health and Safety Issues	None				
Comments	The above information and results are summarized from Log book SOS-1
