Re: Requirement to Install Containment Boom at Ceresco Dam and Battle Creek Dam, pursuant to §311(c) of the Clean Water Act (Docket No. CWA 1321-5-10-001) and Supplement to the Administrative Order issued by U.S. EPA on September 23, 2010

Dear Mr. Adams:

The United States Environmental Protection Agency (U.S. EPA) directs Enbridge Energy, Limited Partnership, Enbridge Pipelines (Lakehead) L.L.C., Enbridge Pipelines (Wisconsin), and Enbridge Energy Partners, L.P. (herein collectively referred to as "Enbridge") to immediately install containment boom at Ceresco Dam and Battle Creek Dam to prevent the migration of oil and/or oil sheen downstream of the respective dams. This letter confirms my March 21, 2012 verbal directive to John Sobojinski, Line 6B Remediation Project Director, to begin installation of the containment boom on the morning of March 22, 2012.

The U.S. EPA directs Enbridge to take such actions pursuant to the Administrative Order ("Order") dated July 27, 2010, issued pursuant to Section 311(c) of the Clean Water Act, 33 U.S.C. § 1321, and the Supplement to the Order ("Supplement") dated September 23, 2010.

If you have any questions regarding this letter, please contact me immediately at (231) 301-0559.

Sincerely,

Ralph Dollhopf
Federal On-Scene Coordinator and Incident Commander
U.S. EPA, Region 5
