						(DD.MMMM)		(DD.MMMM)
<u>OIL OBSERVED</u>		EXTENT OF OIL IMPACTED AREA		NA				
		DENSITY OF OIL /SHEEN		NA				
Total Collection Points		NA						
Total Boom Deployed		NA						
Activity		<p><u>START SOTF Team #3 Activity:</u></p> <p>SOTF-3 Marc Wahrer oversaw work of Enbridge Team C. Team included Colin McGuire (Tetra Tech), Eric Ricci (LBG), Andrew Castor (MDEQ/Weston). Assessed 48 poling points in the following area: Morrow Lake 37.75-39.25. Poling results included a total of 0 heavy points out of 48, 0 moderate points out of 48, 19 light points out of 48 and 29 none points out of 48. All temperatures were above 60 degrees. We had to move out of the center of the Morrow Lake area after lunch due to the wind conditions creating larger waves. We then assisted the two other teams on the lake with some of their points that were along the shore areas and then assisted the team down near the dam area and was able to complete points in the center of Morrow Lake in this area because the wind conditions were not creating the waves at that end of the lake.</p>
