	DENSITY OF OIL /SHEEN	NA		
Total Collection Points	NA			
Total Boom Deployed	NA			
Activity	<p><u>START SOTF Team 6 Activity:</u></p> <p>SOTF#6 Hugh Murrell (START), Tetra Tech Team Lead Steve Pilchder, and Amber McDougle, from AECOM Benny our boat captain performed poling at 22 locations within focus area 28.60 – 36.15.</p> <p>A total of 6 locations had an overall submerged oil category of none, 14 locations had a category of light, 1 dry, and 1 location had a category of moderate.</p> <p>Our team was tasked with mainly re polling locations that earlier this year had recorded sediment temperatures that were too cold to have a true reading taken. Today’s activities went well. The weather was hot with sunny skies and approximately 87 degrees. We had two locations that were particularly tough to get to and usually up to our knees in our waders.</p> <p>On Monday, it is presumed that our team SOTF6 (Tetra Tech team F) will be back doing the normal temperature verification polling points.</p>			

Health and Safety Issues	None
