Total Boom Deployed					
Activity	<p><u>Weston/START Submerged Oil Branch Science Group (SOS) Team Activity:</u> SOS team 1 (Marc Wahrer) oversaw core logging and sampling at the wildlife center building logging station at C3.2 boat launch area as part of the quantification study. I oversaw the logging team of Jerry Kreamer (logging lead). We completed an additional background core (step out from other location) for the quantification study today. The following core was logged and sampled:</p> <p>QUANTIFICATION STUDY CORE</p> <ul style="list-style-type: none"> SE1111C704: No sheen or oil observed under visible light or UV light. No petroleum odors observed. AECOM collected 7 sediment samples. Four samples were submitted for analysis and 3 for lab hold. 				
Health and Safety Issues	None
