

US EPA ARCHIVE DOCUMENT

Houston-Galveston Citizen Air Monitoring Project (HGAMP) Training Application

HGCAMP will train a limited number of citizens to collect three-minute air samples using equipment provided by EPA and citizens' groups. Since the sampling is part of scientific study, strict procedures need to be followed. If you would like to be trained to participate in this project, please answer the following questions. Since space is limited, not everyone who applies will be trained.

Name _____

Home Address _____

Home Phone _____ Home Fax _____ Home e-mail _____

Work Address _____

Work Phone _____ Work Fax _____ Work e-mail _____

I prefer to be contacted (*Please check one*) _____ at home _____ at work

Why do you want to be trained to collect air samples as part of the Houston-Galveston Citizen Air Monitoring Project?

Where do you plan to collect air samples? _____

How close do you live or work from the area where you plan to collect air samples? _____

Would you be willing to collect samples for a neighbor if one called you? _____

Other comments or questions _____
