**RE: Response to 27 March 2014 Letter Requesting Permit Authority Selection
Greenhouse Gas (GHG) Prevention of Significant Deterioration (PSD) Permit
Condensate Splitter Facility, CCI Corpus Christi LLC, Corpus Christi, Texas**

Dear Mr. Stenger:

CCI Corpus Christi LLC requests that the EPA proceed with the GHG PSD permitting process for the above-referenced project to be constructed in Corpus Christi, Texas. This request is provided in response to your 27 March 2014 letter to Ms. Leann Plagens of CCI Corpus Christi LLC wherein you requested the company's preference to continue the GHG PSD permit processing under the authority of the EPA or the Texas Commission on Environmental Quality (TCEQ). CCI Corpus Christi LLC authorized Weston Solutions, Inc. to submit this response to your attention.

CCI Corpus Christi LLC kindly requests that EPA proceed as the permitting authority for the Condensate Splitter Facility and continue processing the GHG PSD permit application as quickly as possible. CCI Corpus Christi LLC appreciates the attention of EPA's GHG permit team.

If you have any questions regarding this submittal, please contact me at (512) 651-7118 or via email at Lon.Morris@westonsolutions.com.

Very truly yours,
WESTON SOLUTIONS, INC.
