Re: Withdrawal of Application for a Prevention of Significant Deterioration Air Quality Permit
for Greenhouse Gas Emissions;
PSD-TX-1410-GHG
Colorado Bend II
Wharton, Wharton County, Texas

Mr. Robinson:

Exelon Power, on behalf of Colorado Bend II Power, LLC, hereby withdraws the application for a Prevention of Significant Deterioration (PSD) air quality permit for greenhouse gas emissions submitted to EPA Region 6 on September 12, 2014 for the addition of two new natural gas fired combined cycle electric generating combustion turbines to be located at the existing Colorado Bend Energy Center in Wharton, Wharton County, Texas. This withdrawal is prompted by the approval of the Texas State Implementation Plan (SIP) regarding GHG emissions and the rescinding of the GHG PSD Federal Implementation Plan (FIP) for Texas effective on November 10, 2014. Since the TCEQ was already reviewing the GHG application in the work-share program with EPA, we will resubmit the application to TCEQ.

Should you have any questions regarding this application, please contact me at albert.hatton@exeloncorp.com or by telephone at (610) 765 5316 or Mr. Larry Moon, P.E. of Zephyr Environmental Corporation at lmoo@zephyrenv.com or by telephone at (512) 879-6619.

Sincerely,

A handwritten signature in black ink, appearing to read "Al M Hatton III", written over a horizontal line.

Albert M. Hatton III
Senior Environmental Project Manager
Exelon Power
