Dear Mr. Chartrand:

We wish to inform you that the draft Prevention of Significant Deterioration (PSD) permit for greenhouse gas emissions and the permit statement of basis have been completed for the Corpus Christi Liquefaction, LNG Terminal Project. The public notice for the draft permit starts on Thursday, February 27, 2014 and will end on Monday, March 31, 2014. A copy of both the draft permit and statement of basis are enclosed, and also will be made available to the public for review at the Bell Whittington Public Library, and our website (<http://yosemite.epa.gov/r6/Apermit.nsf/AirP.>)

In the public notice we have planned for a public hearing on Thursday, April 10, 2014 from 5:00 pm to 7:00 pm. If the public hearing is held, the public comment period shall automatically be extended to the close of the public hearing. The public hearing is scheduled for the following location:

However, if no request for a public hearing is received by Thursday, March 20, 2014, or we determine that there is not a significant interest, the hearing will be cancelled. If the hearing is cancelled, we will notify you and the public by Wednesday, March 26, 2014.

If you have any questions, please feel free to contact me or Jeff Robinson at (214) 665-6435.
