**U.S. Dept. of Ed
denies state's
double-testing
waiver request**

AUSTIN — The U.S. Department of Education has advised the Texas Education Agency that the state's waiver request to address the issue of multiple assessments for students taking Algebra I at the middle school level will not be granted.

In spite of this federal decision, Commissioner of Education Michael Williams is discouraging local school districts and charters from double-testing middle school students taking Algebra I. However, the Commissioner noted the decision about whether to administer multiple assessments is ultimately a local one. Eighth grade mathematics testing in Texas is scheduled to begin on April 1.

"The waiver request was submitted because I do not believe that double testing middle school students is instructionally appropriate nor a valid evaluation of mathematics for Texas middle school and high schools," said Commissioner Williams. "Given state and federal testing requirements, federal denial of our amendment request, and the Texas Legislature's decision to reduce end-of-course testing to one high school mathematics assessment, I am eliminating any perceived incentives a district might have had for double testing students for accountability purposes."

The Commissioner has formally notified all Texas school districts and charters that for 2014 and 2015 state and federal accountability, if a student takes the State of Texas Assessments of Academic Readiness (STAAR) Algebra I end-of-course assessment and a STAAR mathematics grade level assessment, only the results of the Algebra I assessment will be included in the accountability calculations for the campus and the district where the student tested. Although taken while in middle school, the Algebra I EOC would count toward a student's high school graduation requirements under House Bill 5.

Commissioner Williams acknowledged his primary concern remains that some school districts may make poor instructional decisions regarding accelerated students. For example, to avoid the dilemma of having these students' scores attributed to a middle school campus (instead of the high school campus), some districts might reconsider offering Algebra I at the middle school level.

"Such a move would seriously disadvantage students who move quickly through the mathematics curriculum in grades K-8 and would benefit from taking advanced coursework in middle school," said Commissioner Williams.

PUBLIC NOTICE

Enterprise Products Operating LLC, Mont Belvieu Complex

ANNOUNCEMENT OF PROPOSED PERMIT AND PUBLIC HEARING, AND REQUEST FOR PUBLIC COMMENT OF PROPOSED CLEAN AIR ACT GREENHOUSE GAS PREVENTION OF SIGNIFICANT DETERIORATION PRECONSTRUCTION PERMIT

Public Comment Period March 7, 2014 - April 7, 2014

The United States Environmental Protection Agency (EPA) provides notice of and requests public comment on the EPA's proposed action relating to the Prevention of Significant Deterioration (PSD) permit application for the Enterprise Mont Belvieu Complex. EPA is issuing notices of a draft PSD permit for the Enterprise facility in accordance with the PSD regulation (40 CFR 52.21) that if finalized would regulate the greenhouse gas (GHG) air pollutant emissions associated with the project to construct a new propane dehydrogenation (PDH) unit. The installation of the new equipment will occur at the existing facility, which is located at the following address: 10207 FM 1942 Mont Belvieu, TX 77580.

Under the provision of 40 CFR 52.21 (except paragraph (d)(1)), EPA Region 6 implements a GHG PSD Federal Implementation plan for Texas. See 40 CFR 52.2305. As the project will result in increased greenhouse gas emissions for a facility described at 40 CFR 52.21 (b)(4)(v), EPA concludes that Enterprise's application is subject to PSD review for the pollutant GHGs. The construction of the PDH Unit covered by the draft permit is composed of the following emission sources: combustion turbines, heaters, waste heat boiler, auxiliary boilers, flare, emergency pump engines, and process fugitives.

Any interested individual may submit written comments on EPA's proposed PSD permit for the Enterprise project. All comments must be received in writing by April 7, 2014 or postmarked by April 7, 2014 to Robert Todd at one of the following addresses:

EPA Contact: Robert Todd
Phone Number: (214) 665-2156
E-mail: Todd.Roberta@epa.gov
U.S. Mail: Robert Todd
Air Permits Section (6PD-R)
U.S. EPA Region 6
1445 Ross Avenue, Suite 1200
Dallas, TX 75202

All comments on the draft permit must be received by email or postmarked by April 7, 2014 to the respective address above. EPA will respond to and consider all comments in making the final decision regarding the issuing of the permit. Similar comments may be grouped together in the response, and the EPA will not respond to individual commenters directly.

Additionally, all comments will be included in the public docket without change, and may be made available to the public, including any personal information provided, unless the comment includes Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Thus, CBI or other protected information should be clearly identified as such, and should not be submitted through email. Any emails sent directly to the EPA will capture your email address automatically, which will then be included as a part of the public comment. Please note that an email or postal address must be provided with your comments if you wish to receive responses to comments submitted during the public comment period and direct notification of EPA's final decision regarding the permit.

An extension of the 30-day comment period may be granted if the request for an extension adequately demonstrates why additional time is required to prepare comments.

Public Hearing: If EPA determines that there is a significant amount of public interest in the draft permit, the EPA has the right to hold a public hearing. Any requests for a public hearing must be received by the EPA either by email or mail by April 1, 2014, and must state the nature of the issues proposed to be raised in the hearing. Attendance at the public hearing is not required in order to submit written comments. **If the EPA determines that there is significant public interest, a public hearing will be held on April 23, 2014 from 6:00 p.m. to 8:00 p.m. at the following location:**

Mont Belvieu Senior's Center (Senior's Hall): Dining Hall
11607 Eagle Drive
Mont Belvieu, TX 77580
(281)-576-2213

If a public hearing is held, the public comment period shall automatically be extended to the close of the public hearing. EPA has the right to cancel a public hearing if no request for a public hearing is received by April 1, 2014 or EPA determines that there is not significant interest. **If the hearing is cancelled, EPA will post an announcement of the cancellation by April 4, 2014 on EPA's website: <http://www.epa.gov/r6/psdpermit.html>.** All interested individuals may also call the EPA at the above contact number to determine if the public hearing has been cancelled.

Permit Documents: EPA's draft permit, EPA's preliminary determination and statement of basis, Enterprise's permit application and supporting documentation, and comments received from the public, other government agencies, and the applicant during the public comment period become part of the administrative record. The public can access the administrative record at the following locations (please call in advance for available viewing times):

West Chambers Branch Library
10616 Eagle Drive
Mont Belvieu, TX 77580
Phone: 281-576-2245

EPA Region 6 Office
1445 Ross Avenue, Suite 1200
Dallas, TX 75202
Phone: 214-665-7200

Final Determination: A final decision to issue a permit or to deny the application for a permit shall be made after all comments have been considered. Notice of the final decision shall be sent to each person who has submitted written comments or requested notice of the final permit decision, provided EPA has adequate contact information.
