Dear Mr. Weiler:

In accordance with the Clean Air Act (CAA), as amended (42 U.S.C. 7401 et seq.), the U.S. Environmental Protection Agency has reviewed your application for a CAA Prevention of Significant Deterioration (PSD) for Greenhouse Gas Emissions permit authorizing the construction of a new NGL fractionation unit and associated support equipment known as the Lone Star NGL, Mont Belvieu Gas Plant in Mont Belvieu, Texas.

The EPA issued and published requests for public comment regarding EPA's proposed action on the above application on August 29, 2012. During the public comment period, no comments were received for this proposed action. However, a few administrative and/or clarifying changes were included and a copy of the Final Permit Revision Summary is enclosed. After consideration of the pertinent Federal statutes, regulations, and additional material relevant to the application contained in our Administrative Record, the EPA hereby issues the enclosed PSD Permit for the facility described above. The final permit, Final Permit Revision Summary and other key documents relevant to the final PSD permit are also available online at <http://yosemite.epa.gov/r6/Apermit.nsf/AirP>.

In accordance with 40 CFR §124.15(b)(3), this PSD Permit becomes effective immediately upon issuance. If you have any questions regarding this matter, please contact Mr. Jeff Robinson, Chief, Air Permits Section at (214) 665-6435.
