Re: Request for Transfer of Permitting Authority for GHG PSD Permit Application  
Lavaca Bay LNG Project  
PSD GHG Permit Application  
Excelerate Liquefaction Operations (Port Lavaca), LLC  
Point Comfort, Calhoun County, Texas  
CN604576488; RN107273930

Dear Mr. Robinson:

Excelerate Liquefaction Operations (Port Lavaca), LLC (Excelerate), a subsidiary of Excelerate Energy, L.P., submitted an application for Prevention of Significant Deterioration (PSD) authorization for greenhouse gas (GHG) emissions from the proposed Lavaca Bay LNG Project to EPA Region 6 and the Texas Commission on Environmental Quality (TCEQ) in June 2014. EPA Region 6 is currently the lead permitting authority and review of the application is being assisted by TCEQ pursuant to the work share program.

On November 10, 2014, EPA published final actions in the Federal Register approving the Texas GHG PSD permitting program and rescinding the Texas GHG Federal Implementation Plan (FIP). The Transition process established in these actions for pending applications specified that EPA Region 6 will retain jurisdiction over GHG PSD applications filed with EPA Region 6 after February 18, 2014, unless and until the applicant submits a written request to EPA Region 6 to transfer permitting authority to TCEQ.

Excelerate hereby requests the transfer of the permitting authority for the application from EPA Region 6 to TCEQ. Since TCEQ has already been evaluating the application, transfer to TCEQ is expected to simplify and expedite the approval of this important project.

Please contact me at (832) 813-7629 if you have any questions regarding this request.

Sincerely,

A handwritten signature in blue ink that reads "Mike Trammel".

Mike Trammel, Vice President  
Government and Environmental Affairs  
Excelerate Energy, LP
