PUBLIC NOTICE

Flint Hills Resources Corpus Christi, LLC – West Refinery

ANNOUNCEMENT OF PROPOSED PERMIT AND PUBLIC HEARING, AND REQUEST FOR
PUBLIC COMMENT OF PROPOSED CLEAN AIR ACT GREENHOUSE GAS PREVENTION OF
SIGNIFICANT DETERIORATION PRECONSTRUCTION PERMIT

Public Comment Period April 11, 2014 to May 12, 2014

The United States Environmental Protection Agency (EPA) provides notice of and requests public comments on the EPA's proposed action relating to the Prevention of Significant Deterioration (PSD) permit application for the Flint Hills Resources (FHR) Corpus Christi, LLC, West Refinery Domestic Crude Project. If finalized, the permit would regulate greenhouse gas (GHG) pollutant emissions associated with the project to add and modify equipment at the existing plant. The proposed construction will occur at 2825 Suntime Road, Corpus Christi, TX 78409.

Under the provisions of 40 CFR § 52.21 (except paragraph (a)(1)), EPA Region 6 implements a greenhouse gas PSD Federal Implementation Plan (FIP) for Texas. *See 40 CFR § 52.2305.* As the project will result in increased GHG emissions for a facility described at 40 CFR § 52.21(b)(49)(v), EPA concludes that the application is subject to PSD review for GHG emissions. The construction of the FHR West Refinery Domestic Crude Project would add and modify certain equipment to enable the facility to process a larger percentage of domestic (versus foreign) crude oil. Because domestic crude oil is much lighter than foreign crude oil, the project includes construction of a new process unit and other equipment to process additional lighter-end products.

Any interested individual may submit written comments on EPA's proposed PSD permit for the Flint Hills Resources Corpus Christi, LLC West Refinery. All comments must be received in writing by May 12, 2014, or postmarked by May 12, 2014, to Kathleen Aisling at one of the following addresses:
