RE: National Historic Preservation Act Section 106 Consultation Opportunity: Flint Hills Resources Domestic Crude Project - West Refinery in Nueces County, Texas

Dear President Watkins:

The Environmental Protection Agency (EPA), Region 6 is in the process of reviewing a permit application for a Greenhouse Gas (GHG) Prevention of Significant Deterioration (PSD) for the following project in Texas:

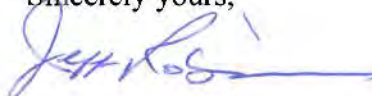

Company	General Project Description	Location
Flint Hills Resources Corpus Christi, LLC - West Refinery	Domestic Crude Project - West Refinery	Corpus Christi, Nueces County, TX

EPA has determined that this project is a federal undertaking under the National Historic Preservation Act (NHPA), and therefore, is subject to the review process set forth in Section 106 of the NHPA. In support of this application, Flint Hills Resources Corpus Christi, LLC - West Refinery conducted a cultural resource survey of the project area. Based on EPA's review of the information provided by the applicant, EPA preliminarily finds that the proposed construction will not likely affect properties listed or potentially eligible for listing on the National Register. However, based on the location of the site and information provided by the Texas Historical Commission, EPA understands that your tribe may have historically had interests in Nueces County.

We are writing to inquire whether you have any interests in the area or project site listed above and whether you would like to participate as a consulting party in the Section 106 consultation process on this permit application. You may review a copy of the GHG permit application and cultural resource survey for the project on EPA's website at: <http://yosemite.epa.gov/r6/Apermit.nsf/AirP>. There, you will be able to obtain more specific information about the location and nature of the proposed project.

If you have any questions regarding this request, please contact me at (214) 665-6435 or Alfred C. "AC" Dumaul of my staff at (214) 665-6613 or email at [dumaul.alfred@epa.gov](mailto:dumaul.alfred@epa.gov). We respectfully request your response within 15 days of receipt of this letter.

Sincerely yours,

Jeff Robinson

RE: National Historic Preservation Act Section 106 Consultation Opportunity: Flint Hills Resources Domestic Crude Project - West Refinery in Nueces County, Texas

Dear Principal Chief Baker:

The Environmental Protection Agency (EPA), Region 6 is in the process of reviewing a permit application for a Greenhouse Gas (GHG) Prevention of Significant Deterioration (PSD) for the following project in Texas:

<b>Company</b>	<b>General Project Description</b>	<b>Location</b>
Flint Hills Resources Corpus Christi, LLC - West Refinery	Domestic Crude Project - West Refinery	Corpus Christi, Nueces County, TX

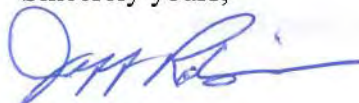

EPA has determined that this project is a federal undertaking under the National Historic Preservation Act (NHPA), and therefore, is subject to the review process set forth in Section 106 of the NHPA. In support of this application, Flint Hills Resources Corpus Christi, LLC - West Refinery conducted a cultural resource survey of the project area. Based on EPA's review of the information provided by the applicant, EPA preliminarily finds that the proposed construction will not likely affect properties listed or potentially eligible for listing on the National Register. However, based on the location of the site and information provided by the Texas Historical Commission, EPA understands that your tribe may have historically had interests in Nueces County.

We are writing to inquire whether you have any interests in the area or project site listed above and whether you would like to participate as a consulting party in the Section 106 consultation process on this permit application. You may review a copy of the GHG permit application and cultural resource survey for the project on EPA's website at: <http://yosemite.epa.gov/r6/Apermit.nsf/AirP>. There, you will be able to obtain more specific information about the location and nature of the proposed project.

If you have any questions regarding this request, please contact me at (214) 665-6435 or Alfred C. "AC" Dumauual of my staff at (214) 665-6613 or email at [dumauual.alfred@epa.gov](mailto:dumauual.alfred@epa.gov). We respectfully request your response within 15 days of receipt of this letter.

RE: National Historic Preservation Act Section 106 Consultation Opportunity: Flint Hills Resources Domestic Crude Project - West Refinery in Nueces County, Texas

Dear Chief Pyle:

The Environmental Protection Agency (EPA), Region 6 is in the process of reviewing a permit application for a Greenhouse Gas (GHG) Prevention of Significant Deterioration (PSD) for the following project in Texas:

Company	General Project Description	Location
Flint Hills Resources Corpus Christi, LLC - West Refinery	Domestic Crude Project - West Refinery	Corpus Christi, Nueces County, TX

EPA has determined that this project is a federal undertaking under the National Historic Preservation Act (NHPA), and therefore, is subject to the review process set forth in Section 106 of the NHPA. In support of this application, Flint Hills Resources Corpus Christi, LLC - West Refinery conducted a cultural resource survey of the project area. Based on EPA's review of the information provided by the applicant, EPA preliminarily finds that the proposed construction will not likely affect properties listed or potentially eligible for listing on the National Register. However, based on the location of the site and information provided by the Texas Historical Commission, EPA understands that your tribe may have historically had interests in Nueces County.

We are writing to inquire whether you have any interests in the area or project site listed above and whether you would like to participate as a consulting party in the Section 106 consultation process on this permit application. You may review a copy of the GHG permit application and cultural resource survey for the project on EPA's website at: <http://yosemite.epa.gov/r6/Apermit.nsf/AirP>. There, you will be able to obtain more specific information about the location and nature of the proposed project.

RE: National Historic Preservation Act Section 106 Consultation Opportunity: Flint Hills Resources Domestic Crude Project - West Refinery in Nueces County, Texas

Dear Principal Chief Harjo:

The Environmental Protection Agency (EPA), Region 6 is in the process of reviewing a permit application for a Greenhouse Gas (GHG) Prevention of Significant Deterioration (PSD) for the following project in Texas:

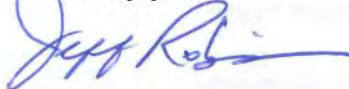

Company	General Project Description	Location
Flint Hills Resources Corpus Christi, LLC - West Refinery	Domestic Crude Project - West Refinery	Corpus Christi, Nueces County, TX

EPA has determined that this project is a federal undertaking under the National Historic Preservation Act (NHPA), and therefore, is subject to the review process set forth in Section 106 of the NHPA. In support of this application, Flint Hills Resources Corpus Christi, LLC - West Refinery conducted a cultural resource survey of the project area. Based on EPA's review of the information provided by the applicant, EPA preliminarily finds that the proposed construction will not likely affect properties listed or potentially eligible for listing on the National Register. However, based on the location of the site and information provided by the Texas Historical Commission, EPA understands that your tribe may have historically had interests in Nueces County.

We are writing to inquire whether you have any interests in the area or project site listed above and whether you would like to participate as a consulting party in the Section 106 consultation process on this permit application. You may review a copy of the GHG permit application and cultural resource survey for the project on EPA's website at: <http://yosemite.epa.gov/r6/Apermit.nsf/AirP>. There, you will be able to obtain more specific information about the location and nature of the proposed project.

If you have any questions regarding this request, please contact me at (214) 665-6435 or Alfred C. "AC" Dumaul of my staff at (214) 665-6613 or email at [dumaul.alfred@epa.gov](mailto:dumaul.alfred@epa.gov). We respectfully request your response within 15 days of receipt of this letter.

Sincerely yours,

Jeff Robinson

In support of this application, Flint Hills Resources Corpus Christi, LLC - West Refinery conducted a cultural resource survey of the project area. Based on EPA's review of the information provided by the applicant, EPA preliminarily finds that the proposed construction will not likely affect properties listed or potentially eligible for listing on the National Register. However, based on the location of the site and information provided by the Texas Historical Commission, EPA understands that your tribe may have historically had interests in Nueces County.

We are writing to inquire whether you have any interests in the area or project site listed above and whether you would like to participate as a consulting party in the Section 106 consultation process on this permit application. You may review a copy of the GHG permit application and cultural resource survey for the project on EPA's website at: <http://yosemite.epa.gov/r6/Apermit.nsf/AirP>. There, you will be able to obtain more specific information about the location and nature of the proposed project.

If you have any questions regarding this request, please contact me at (214) 665-6435 or Alfred C. "AC" Dumaul of my staff at (214) 665-6613 or email at [dumaul.alfred@epa.gov](mailto:dumaul.alfred@epa.gov). We respectfully request your response within 15 days of receipt of this letter.

Sincerely yours,

Jeff Robinson  
Section Chief  
Air Permits Section
