**ANNOUNCEMENT OF PROPOSED PERMIT AND PUBLIC HEARING, AND REQUEST  
FOR PUBLIC COMMENT OF PROPOSED CLEAN AIR ACT GREENHOUSE GAS  
PREVENTION OF SIGNIFICANT DETERIORATION PRECONSTRUCTION PERMIT**

Permit Number: PSD-TX-1310-GHG

Public Comment Period October 24, 2014 to November 24, 2014

The United States Environmental Protection Agency (EPA) provides notice of and requests public comments on the EPA's proposed action relating to the Prevention of Significant Deterioration (PSD) permit application for Guadalupe Power Partners (GPP), Guadalupe Generating Station. If finalized, the permit would regulate greenhouse gas (GHG) pollutant emissions associated with the construction of the peak power addition project. The proposed construction will occur at the existing power station, located in Guadalupe County, at 5740 Weil Road, Marion, Texas 78124.

Under the provisions of 40 CFR § 52.21 (except paragraph (a)(1)), EPA Region 6 implements a greenhouse gas PSD Federal Implementation Plan (FIP) for Texas. *See 40 CFR § 52.2305.* EPA concludes that the application is subject to PSD review for the pollutant GHG. With this proposed project, GPP plans to construct two natural gas-fired simple-cycle turbines and associated equipment, a fire water pump engine, and two circuit breakers. For the purposes of this proposed permitting action, GHG emissions are permitted from the two turbines, the fire water pump engine, circuit breakers, fugitive, maintenance, startup and shutdown emissions.

Any interested individual may submit written comments on EPA's proposed PSD permit for the peak power addition project. All comments must be received in writing by November 24, 2014, or postmarked by November 24, 2014, to Melanie Magee at one of the following addresses:
