Dear Mr. Packard:

We wish to inform you that the draft Prevention of Significant Deterioration (PSD) permit for greenhouse gas emissions and the permit statement of basis have been completed for the South Texas Electric Cooperative, Inc.'s Red Gate Power Plant. The public notice for the draft permit starts on September 17, 2014, and will end on October 17, 2014. A copy of both the draft permit and statement of basis are enclosed, and also will be made available to the public for review at the Sekula Public Library and our website (<http://yosemite.epa.gov/r6/Apermit.nsf/AirP.>)

In the public notice, we have planned for a public hearing on October 28, 2014, from 5:00 p.m. to 7:00 p.m. If the public hearing is held, the public comment period shall automatically be extended to the close of the public hearing. The public hearing is scheduled for the following location:

However, if no request for a public hearing is received by October 7, 2014, or we determine that there is not a significant interest, the hearing will be cancelled. If the hearing is cancelled, we will notify you and the public by October 10, 2014.

If you have any questions, please feel free to contact me or Jeff Robinson at (214) 665-6435.
