

US EPA ARCHIVE DOCUMENT

UNITED STATES ENVIRONMENTAL PROTECTION AGENCY
REGION 6
1445 ROSS AVENUE, SUITE 1200
DALLAS TX 75202-2733

OCT 08 2014

Mr. Gary Clark
Asset Manager
Victoria WLE, LP
919 Milam Street, Suite 2300
Houston, TX 77002

Dear Mr. Clark:

In accordance with the Clean Air Act (CAA), as amended (42 U.S.C. 7401 et seq.), the U.S. Environmental Protection Agency has reviewed your application for a CAA Prevention of Significant Deterioration (PSD) for Greenhouse Gas Emissions permit authorizing the construction of the Victoria Power Station in Victoria, Texas.

The EPA issued and published requests for public comment regarding EPA's proposed action on the above application on August 12, 2014. During the public comment period, EPA received written comments on August 12, 2014 from CAMS eSPARC, LLC on behalf of Victoria WLE, LP. After considering the pertinent Federal statutes and regulations and material relevant to the application contained in our Administrative Record, the EPA hereby issues the enclosed PSD permit for the facility described above. The final permit, Responses to Public Comments, and other key documents relevant to the final PSD permit are also available online at: <http://yosemite.epa.gov/r6/Apermit.nsf/AirP>.

In accordance with 40 CFR § 124.14(b)(3), this PSD permit becomes effective thirty (30) days from the date of service of notice of this permit decision unless a petition for review is properly and timely filed with the EAB. In the event that a petition for review is filed with the EAB, construction of the facility is not authorized under this PSD permit until resolution of the EAB petition(s). If you have any questions regarding this matter, please contact Mr. Jeff Robinson, Chief, Air Permits Section at (214) 665-6435.

Sincerely,

A handwritten signature in cursive script that reads "Susan Speddy".
