Arkansas is not authorized to operate the Federal program on Indian lands. This authority remains with EPA.

D. Decision

I conclude that the Arkansas application for program revision meets all of the statutory and regulatory requirements established by RCRA. Accordingly, Arkansas is granted final authorization to operate its hazardous waste program as revised.

Arkansas now has responsibility for permitting treatment, storage, and disposal facilities within its borders and carrying out the aspects of the RCRA program described in its revised program application. Arkansas also has primary enforcement responsibilities, although EPA retains the right to conduct inspections under section 3007 of RCRA and to take enforcement actions under sections 3008, 3013 and 7003 of RCRA.

E. Codification in Part 272

EPA uses part 272 for codification of the decision to authorize Arkansas' program and for incorporation by reference of those provisions of Arkansas' statutes and regulations that EPA will enforce under sections 3008, 3013, and 7003 of RCRA. EPA is reserving amendment of part 272, subpart E.

Compliance with Executive Order 12281

The Office of Management and Budget has exempted this rule from the

requirements of section 3 of Executive Order 12281.

Certification Under the Regulatory Flexibility Act

Pursuant to the provisions of 4 U.S.C. 605(b), I hereby certify that this authorization will not have a significant economic impact on a substantial number of small entities. This authorization effectively suspends the applicability of certain Federal regulations in favor of Arkansas' program, thereby eliminating duplicative requirements for handlers of hazardous waste in the State. This authorization does not impose any new burdens on small entities. This rule, therefore, does not require a regulatory flexibility analysis.

Arkansas; Final Authorization of State Hazardous Waste Management Program Revisions

AGENCY: Environmental Protection Agency.

ACTION: Immediate final rule.

SUMMARY: The State of Arkansas has applied for final authorization of revision to its hazardous waste program under the Resource Conservation and Recovery Act (RCRA). The Environmental Protection Agency (EPA) has reviewed the State of Arkansas' application and has made a decision, subject to public review and comment, that Arkansas' hazardous waste program revision satisfies all of the requirements necessary to qualify for final authorization. Thus, EPA intends to approve Arkansas' hazardous waste program revisions, subject to the authority retained by EPA in accordance with the Hazardous and Solid Waste Amendments of 1984. Arkansas' application for program revision is available for public review and comment.

NOTES: Final authorization for the State of Arkansas shall be effective on December 4, 1992, unless EPA publishes a prior Federal Register action withdrawing this immediate final rule. All comments on Arkansas' program revision application must be received by the close of business on November 4, 1992.

ADDRESSES: Copies of the Arkansas program revision application and the materials which EPA used in evaluating the revision are available from 8:30 a.m. to 4 p.m., Monday through Friday at the following addresses for inspection and copying: Arkansas Department of Pollution Control and Ecology, 8001 National Drive, Little Rock, Arkansas 72209-8913, phone (501) 562-7444 or the U.S. EPA, Region 6 Library, 12th Floor, First Interstate Bank Tower at Fountain Place, 1445 Ross Avenue, Dallas, Texas 65202, phone (214) 655-8444. Written comments, referring to Docket Number AR-92-3, should be sent to Janie Hernandez, Arkansas Authorization Lead, Grants and Authorization Section (6H-HS), RCRA Programs Branch, U.S. EPA Region 6, First Interstate Bank Tower at Fountain Place, 1445 Ross Avenue, Dallas, Texas 75202, phone (214) 655-8533.

FOR FURTHER INFORMATION CONTACT: Janie Hernandez, Grants and Authorization Section, RCRA programs Branch, U.S. EPA Region 6, First Interstate Bank Tower at Fountain Place, 1445 Ross Avenue, Dallas, Texas 75202, phone (214) 655-8533.

SUPPLEMENTARY INFORMATION:

A. Background

States with final authorization under section 3006(b) of the Resource Conservation and Recovery Act ("RCRA

or the Act"), 42 U.S.C. 6926(b), have a continuing obligation to maintain a hazardous waste program that is equivalent to, consistent with, and no less stringent than the Federal hazardous waste program.

Revisions to State hazardous waste programs are necessary when Federal or State statutory or regulatory authority is modified or when certain other changes occur. Most commonly, State program revisions are necessitated by changes to EPA's regulations in 40 CFR parts 260-266, 268, 124, and 270.

B. Arkansas

Arkansas initially received final authorization on January 25, 1985. (See 50 FR 1513) to implement its base hazardous waste management program. Arkansas received authorization for revision to its program on August 23, 1985, May 29, 1990 (See 55 FR 11192), and November 18, 1991 (See 56 FR 57593). On June 5, 1992, Arkansas submitted a final complete program revision application for additional program approvals. Today, Arkansas is seeking approval of its program revision in accordance with 40 CFR 271.21(b)(3).

EPA has reviewed the State of Arkansas' application, and has made an immediate final decision that Arkansas' hazardous waste program revision satisfies all of the requirements necessary to qualify for final

authorization. Consequently, EPA intends to grant final authorization for the additional program modifications to Arkansas. The public may submit written comments on EPA's final decision until November 4, 1992. Copies of Arkansas' application for program revision are available for inspection and copying at the locations indicated in the **ADDRESSES** section of this notice.

Approval of Arkansas' program revision shall become effective in 60 days unless an adverse comment pertaining to the State's revision discussed in this notice is received by the end of the comments period. If an adverse comment is received, EPA will publish either (1) a withdrawal of the immediate final decision or (2) a notice containing a response to comments which either affirms that the immediate final decision takes effect or reverse the decision.

The Arkansas program revision application includes State regulatory changes that are equivalent to the rules promulgated in the Federal RCRA implementing regulations in 40 CFR parts 124, 260-262, 264-266, 268, and 270 that were published in the Federal Register (FR) through August 10, 1990. This proposed approval includes the provisions that are listed in the chart below. This chart lists the State analogs that are being recognized as equivalent to the appropriate Federal requirement

33. Permit Conditions to Protect Human Health and the Environment	AHSWMC 3a(7), 8 14, as amended September 23, 1988, effective October 31, 1988.

On November 18, 1991, (56 FR 57593) the EPA granted final authorization for the State of Arkansas to operate the hazardous waste program. However, EPA did not intend to authorize the State of Arkansas for the Resource Conservation and Recovery Act (RCRA) section 3004(t) and (3). These provisions created a Federal cause of action for any person with a claim arising from conduct for which financial assurances are required under RCRA. This action may be asserted directly against the guarantor of the assurances if (1) the owner or operator of the facility is in bankruptcy or other similar proceedings under Federal law, or (2) the person with the claim is not likely to obtain jurisdiction over the facility owner operator in either Federal or State court. The cause of action created by Section 3004(t) is always available in delegable States. States are welcome to create parallel causes of action viable in State courts, but to the extent that States do so, the State cause of action cannot limit the availability of the Federal action. Therefore, EPA did not propose to authorize Arkansas for this provision.

Arkansas is not authorized to operate the Federal program on Indian lands. This authority remains with EPA.

D. Decision

I conclude that the Arkansas application for program revision meets all of the statutory and regulatory requirements established by RCRA. Accordingly, Arkansas is granted final authorization to operate its hazardous waste program as revised.

Arkansas now has responsibility for permitting treatment, storage, and disposal facilities within its borders and carrying out the aspects of the RCRA program described in its revised program application. Arkansas also has primary enforcement responsibilities, although EPA retains the right to conduct inspections under section 3007 of RCRA and to take enforcement actions under sections 3008, 3013 and 7003 of RCRA.

E. Codification in Part 272

EPA uses part 272 for codification of the decision to authorize Arkansas' program and for incorporation by reference of those provisions of

Arkansas' statutes and regulations that EPA will enforce under sections 3008, 3013, and 7003 of RCRA. EPA is reserving amendment of part 272, subpart E.

Compliance with Executive Order 12291

The Office of Management and Budget has exempted this rule from the requirements of Section 3 of Executive Order 12291.

Certification Under the Regulatory Flexibility Act

Pursuant to the provisions of 4 U.S.C. 605(b), I hereby certify that this authorization will not have a significant economic impact on a substantial number of small entities. This authorization effectively suspends the applicability of certain Federal regulations in favor of Arkansas' program, thereby eliminating duplicative requirements for handlers of hazardous waste in the State. This authorization does not impose any new burdens on small entities. This rule, therefore, does not require a regulatory flexibility analysis.

[NM-930-4214-10; NNRNM 88868]

Withdrawal of Public Land for the Berrando Camp Administrative Site, New Mexico

AGENCY: Bureau of Land Management, Interior.

ACTION: Public land order.

SUMMARY: This order withdraws 40 acres of public land from surface entry and mining for a period of 20 years for the Bureau of Land Management to relocate, establish, and protect the Berrando Camp Administrative Site. The land has been and remains open to mineral leasing.

EFFECTIVE DATE: October 5, 1992.

FOR FURTHER INFORMATION CONTACT: Georgiana E. Armijo, BLM New Mexico State Office, P.O. Box 27115, Santa Fe, New Mexico, 87502-7115, 505-438-7594.

By virtue of the authority vested in the Secretary of the Interior by section 204 of the Federal Land Policy and Management Act of 1976, 43 U.S.C. 1714 (1988), it is ordered as follows:

1. Subject to valid existing rights, the following described public land is hereby withdrawn from settlement, sale, location, or entry under the general land laws, including the United States mining laws (30 U.S.C. Ch. 2 (1988)), but not from leasing under the mineral leasing laws, to protect the Bureau of Land Management's Berrando Camp Administrative Site:

New Mexico Principal Meridian

T. 23 S., R. 15 E.,

Sec. 9, NW¼, NW¼.

The area described contains 40 acres in Otero County.

2. The withdrawal made by this order does not alter the applicability of those public land laws governing the use of the land under lease, license, or permit, or governing the disposal of their mineral or vegetative resources other than under the mining laws.

3. This withdrawal will expire 20 years from the effective date of this order unless, as a result of a review conducted before the expiration date pursuant to section 204(f) of the Federal Land Policy and Management Act of 1976, 43 U.S.C. 1714(f) (1988), the Secretary determines that the withdrawal shall be extended.

ACTION: Final regulation.

SUMMARY: This final rule revises regulations which govern various Public Health Service (PHS) health professions and nursing training grant and loan programs to bring these programs into conformity with statutory amendments made to the various sections of the PHS Act under titles VII and VIII, include other changes to bring the regulations into line with current Department regulatory and grant policies; amend regulatory sections that contain information collection requirements with current Office of Management and Budget (OMB) approval numbers; and make other changes which are editorial or clarifying in nature.

The affected regulations are amended primarily by the following statutes: the Health Professions Reauthorization Act of 1988, the Nursing Shortage Reduction and Education Extension Act of 1988, the Drug-Free Workplace Act of 1988, the Department of the Interior and Related Agencies Appropriations Act for Fiscal Year 1990, and the National Health Service Corps Revitalization Amendments of 1990.

EFFECTIVE DATE: October 1, 1992.

FOR FURTHER INFORMATION CONTACT: Shirley L. Johnson, Director, Office of Program Development, Bureau of Health Professions, Health Resources and Services Administration, room 8A-55, Parklawn Building, 5600 Fishers Lane, Rockville, Maryland 20865; telephone: (301) 443-1590.

SUPPLEMENTARY INFORMATION: This final rule amends various Public Health Service (PHS) health professions and nursing training grant and loan regulations under title 42, part 57, primarily to implement the provisions of titles VI and VII of Public Law 100-807, the Health Professions Reauthorization Act of 1988 and the Nursing Shortage Reduction and Education Extension Act of 1988, respectively. The subparts listed below discuss the specific amendments made to the various sections of the PHS Act by: (1) Titles VI or VII of Public Law 100-807, as appropriate, (2) changes regarding current Department regulatory and grant policies, (3) changes regarding current Office of Management and Budget (OMB) approval numbers in those sections of the subparts that contain information collection requirements, (4) deletion of OMB control numbers in those sections that refer only to clearance of forms and not to clearance of regulatory language, and (5) other changes for consistency in the title 42, part 57 regulations which are editorial or clarifying in nature.

Other amendments which affect the various regulations under title 42, part 57 have been made in recent years by: (1) Public Law 100-890, the Drug-Free Workplace Act of 1988, and (2) Public Law 101-121, the Department of the Interior and Related Agencies Appropriations Act for Fiscal Year 1990. These statutory amendments, cited below, are implemented through the following CFR revisions:
