RCRA REVISION CHECKLIST 17

HSWA Codification Rule

50 FR 28702-28755

July 15, 1985

(HSWA Cluster 1)

This codification rule incorporated numerous HSWA amendments to RCRA into the existing RCRA regulations. Since HSWA provides that States may seek authorization for selected provisions (instead of having to adopt all provisions simultaneously), this checklist has been subdivided into logical groupings of the HSWA early enactment provisions. There are 19 subsections to this checklist.

- Checklist 17 A - Small Quantity Generators (superseded by Checklist 23)
- Checklist 17 B - Delisting
- Checklist 17 C - Household Waste
- Checklist 17 D - Waste Minimization
- Checklist 17 E - Location Standards for Salt Domes, Salt Beds, Underground Mines and Caves
- Checklist 17 F - Liquids in Landfills
- Checklist 17 G - Dust Suppression
- Checklist 17 H - Double Liners
- Checklist 17 I - Ground-Water Monitoring
- Checklist 17 J - Cement Kilns
- Checklist 17 K - Fuel Labeling (superseded by Checklist 19)
- Checklist 17 L - Corrective Action
- Checklist 17 M - Pre-construction Ban
- Checklist 17 N - Permit Life
- Checklist 17 O - Omnibus Provision
- Checklist 17 P - Interim Status
- Checklist 17 Q - Research and Development Permits
- Checklist 17 R - Hazardous Waste Exports (superseded by Checklist 31)
- Checklist 17 S - Exposure Information

RCRA REVISION CHECKLIST 17 A

Small Quantity Generators

Note: The changes addressed by this checklist were superseded by Revision Checklist 23 (51 FR 10146, March 24, 1986). As this latter checklist is in the same cluster as 17 A, States are advised to make the changes required by Revision Checklist 23 rather than those addressed by this present checklist. Both checklists should be submitted at the same time as part of an application, but the entries in the State citation column on Revision Checklist 17 A would direct the reviewer to Revision Checklist 23 rather than to a section of State code.

FEDERAL REQUIREMENT	FEDERAL RCRA CITATION	ANALOGOUS STATE CITATION	STATE ANALOG IS:		
			EQUIV-ALENT	MORE STRIN-GENT	BROAD-ER IN SCOPE

PART 261 - IDENTIFICATION AND LISTING OF HAZARDOUS WASTE

SUBPART A - GENERAL

SPECIAL REQUIREMENTS FOR HAZARDOUS WASTE GENERATED BY SMALL QUANTITY GENERATORS

†	exceptions	261.5(b)	3905	MS
†	generator requirements for exclusion of acutely hazardous waste	261.5(f)	3913	MS
†	less than 100 kg accumulation on-site	261.5(g)	3915	MS
†	greater than 100 kg but less than 1000 kg:			
	waste determination	261.5(h)(1)*	3917.A	MS
†	accumulation on-site	261.5(h)(2)	3917.A	MS
	manifest after 8/5/85	261.5(h)(3)	3917.A	MS
†	treat or dispose	261.5(h)(4)	3917.A	MS
†	redesignate paragraphs	261.5(i) & (j)	3917.B and C	MS

Note: The SQG requirements indicated as optional are reorganized and recodified but are substantively unchanged from existing requirements.

*Note: The state's equivalent to 261.5(h) is 3917.A. 261.5(h)(1)-(4) were not found.

RCRA REVISION CHECKLIST 17 B

Delisting

Note: Delisting is an optional requirement. If the State currently has a delisting program, then it must modify its delisting regulations to comply with these new standards. The changes to 260.22(b) were made at 54 FR 27114 (June 27, 1989). If a State was authorized for the changes addressed by this checklist prior to this rule's promulgation date, then the State need not make the required changes to 260.22(b) because these changes merely eliminate potential confusion as to existing regulatory requirements. However, States which are not authorized as of this date should make these changes if they choose to include delisting as part of their program.

Also, States submitting this checklist need to provide documentation regarding other delisting standards not covered by this checklist. The new SAM will contain a Consolidated Base Program Checklist addressing Part 260 requirements that may be helpful to a State preparing this documentation. The delisting program is addressed by 40 CFR 260.20 and 260.22.

RCRA REVISION CHECKLIST 17 H

Double Liners

Note: Corrections were made to 264.221(c) and 264.301(c) by a May 9, 1990 (55 FR 19262; Revision Checklist 77) notice. This correction notice was based on a decision reached in the U.S. Court of Appeals for the District of Columbia on June 23, 1987 concerning a lawsuit filed against EPA. States which have not yet adopted the Revision Checklist 17 H provisions are encouraged to adopt the Revision Checklist 77 corrections when adopting the requirements addressed by Revision Checklist 17 H.

PROHIBITIONS

2	waste burned in kilns	266.31(b)(1)	4141.F.2*	EQ
---	-----------------------	--------------	-----------	----

*Note: This citation was the equivalent State citation at the time of the original submission of this checklist. Since then, Subpart D has been reserved in the CFR and therefore repealed in the State's regulations. The citations continue to be equivalent.

1 Note that this provision is not contained in the July 15, 1985 rule. It appeared January 4, 1985 (50 FR 614-668, Revision Checklist 13), and was subsequently amended on November 29, 1985 (50 FR 49164-49212, Revision Checklist 19).

2 Note that this provision was recodified as §266.31(c) on November 29, 1985 (50 FR 49164-49212, Revision Checklist 19).

RCRA REVISION CHECKLIST 17 K

Fuel Labeling

Note: The changes addressed by this checklist were completely superseded in Revision Checklist 19 (50 FR 49164, November 29, 1985). As this latter checklist is in the same cluster as 17 K, States are advised to make the changes required by Revision Checklist 19 rather than those addressed by this present checklist. Both checklists should be submitted at the same time as part of an application, but the entry in the State citation column on Revision Checklist 17 K should refer the reviewer to Revision Checklist 19 rather than to a section of State code.
