[IN39-2-6702; FRL-5102-4]

Clean Air Act Approval and Promulgation of Employee Commute Options Program; Indiana

AGENCY: Environmental Protection Agency.

ACTION: Direct final rule; removal.

SUMMARY: On August 18, 1994, (59 FR 42506) the United States Environmental Protection Agency (USEPA) approved a revision to the Indiana State Implementation Plan (SIP) for the Employee Commute Options (ECO) program without prior proposal. The rule approved an ECO program for the severe ozone nonattainment area that includes Lake and Porter Counties. The USEPA is removing this final rule due to the adverse comments received on this rule. In a subsequent final rule, USEPA will summarize and respond to the comments received and announce final rulemaking action on this requested Indiana SIP revision on ECO.

EFFECTIVE DATE: November 7, 1994.

ADDRESSES: Copies of the documents relevant to this action are available for public inspection during normal business hours at the following locations:

Louisiana: Final Authorization of State Hazardous Waste Management Program Revisions

AGENCY: Environmental Protection Agency.

ACTION: Immediate final rule.

SUMMARY: The State of Louisiana has applied for Final Authorization for revisions to its hazardous waste program under the Resource Conservation and Recovery Act. The Environmental Protection Agency (EPA) reviewed Louisiana's application and decided that its hazardous waste program revision satisfies all of the requirements necessary to qualify for Final Authorization. Unless adverse written comments are received during the review and comment period provided for public participation in this process, EPA intends to approve Louisiana's hazardous waste program revision subject to the authority retained by EPA in accordance with the Hazardous and Solid Waste Amendments of 1984. Louisiana's application for the program revision is available for public review and comment.

DATES: This Final Authorization for Louisiana shall be effective on January 23, 1995 unless EPA publishes a prior Federal Register (FR) action withdrawing this Immediate Final Rule. All comments on Louisiana's program revision application must be received by the close of business December 22, 1994.

ADDRESSES: Copies of the Louisiana program revision application and the materials which EPA used in evaluating the revision are available for inspection and copying from 8:30 a.m. to 4 p.m. Monday through Friday at the following addresses: Louisiana Department of Environmental Quality, H.B. Garlock Building, 7290 Bluebonnet, Baton Rouge, Louisiana 70810, phone (504) 765-0617 and EPA, Region 6 Library, 12th Floor, First Interstate Bank Tower at Fountain Place, 1445 Ross Avenue, Dallas, Texas 75202, phone (214) 665-6444. Written comments, referring to Docket Number LA-95-1, should be sent to Dick Thomas, Region 6 Authorization Coordinator, Grants and

Authorization Section (6H-HS), RCRA Programs Branch, U.S. EPA Region 6, First Interstate Bank Tower at Fountain Place, 1445 Ross Avenue, Dallas, Texas 75202, (214) 665-8528.

FOR FURTHER INFORMATION CONTACT: Dick Thomas, Region 6 Authorization Coordinator, Grants and Authorization Section (6H-HS), RCRA Programs Branch, U.S. EPA Region 6, First Interstate Bank Tower at Fountain Place, 1445 Ross Avenue, Dallas, Texas 75202, (214) 665-8528.

SUPPLEMENTARY INFORMATION:**A. Background**

States with final authorization under section 3006(b) of the Resource Conservation and Recovery Act ("RCRA or the Act"), 42 U.S.C. 6926(b), have a continuing obligation to maintain a hazardous waste program that is equivalent to, consistent with, and no less stringent than the Federal hazardous waste program. Revisions to State hazardous waste programs are necessary when Federal or State statutory or regulatory authority is modified or when certain other changes occur. Most commonly, State program revisions are necessitated by changes to EPA's regulations in 40 CFR parts 124, 260 through 268, and 270.

B. Louisiana

Louisiana initially received Final Authorization, effective February 7, 1985 (see 50 FR 3348), to implement its base hazardous waste management program. Louisiana received authorization for revisions to its program effective January 29, 1990 (see 54 FR 48889), and October 25, 1991 (see 56 FR 41958, and Corrections at 56 FR 51762). On September 22, 1994, Louisiana submitted a final complete program revision application for additional program approvals. Today, Louisiana is seeking approval of its program revision in accordance with § 271.21(b)(3).

In 1983, the Louisiana Legislature adopted Act 97, which amended and reenacted Louisiana Revised Statutes 30:1051 et seq., the Environmental Affairs Act. This Act created the Louisiana Department of Environmental Quality (LDEQ), which has lead agency jurisdictional authority for administering the RCRA Subtitle C program in the State.

EPA reviewed LDEQ's application, and made an immediate final decision that LDEQ's hazardous waste program revision satisfies all of the requirements necessary to qualify for Final Authorization. Consequently, EPA intends to grant Final Authorization for

the additional program modifications to the State. The public may submit written comments on EPA's final decision until December 22, 1994. Copies of LDEQ's application for program revision are available for inspection and copying at the locations indicated in the ADDRESSES section of this document.

Approval of LDEQ's program revision shall become effective 75 days from the date this notice is published, unless an adverse written comment pertaining to

the State's revision discussed in this notice is received by the end of the comment period. If an adverse written comment is received, EPA will publish either: (1) A withdrawal of the immediate final decision; or (2) a notice containing a response to the comment that either affirms that the immediate final decision takes effect or reverses the decision.

Louisiana's program revision application includes State regulatory changes that are at least equivalent to

the rules promulgated in the Federal RCRA implementing regulations in 40 CFR parts 124, 260-262, 264, 265, 266 and 270, that were published in the Federal Register through June 30, 1987. This proposed approval includes the provisions that are listed in the chart below. This chart also lists the State analogs that are being recognized as equivalent to the appropriate Federal requirements.

17A 2. HSWA Codification Rule; Small Quantity Generators [50 FR 28702] July 15, 1985. (Checklist 17A).	The changes addressed by this Checklist were superseded by RCRA Revision Checklist 23. LDEQ made the changes required by Checklist 23 rather than those addressed by this Checklist. LHWR do not recognize EPA's category of Conditionally Exempt Small Quantity Generators. Instead, all Small Quantity Generators (SQGs) in Louisiana are subject to the State's SQG regulations and most LHWR applicable to Generators other than SQGs. This makes the State's SQG regulations More Stringent than EPA's.

Louisiana is not authorized to operate the Federal program on Indian lands. This authority remains with EPA.

C. Decision

I conclude that LDEQ's application for a program revision meets the statutory and regulatory requirements established by RCRA. Accordingly, LDEQ is granted Final Authorization to operate its hazardous waste program as revised. Louisiana now has responsibility for permitting treatment, storage, and disposal facilities within its borders and

for carrying out the aspects of the RCRA program described in its revised program application, subject to the limitations of the HSWA. Louisiana also has primary enforcement responsibilities, although EPA retains the right to conduct inspections under section 3007 of RCRA, and to take enforcement actions under sections 3008, 3013 and 7003 of RCRA.

D. Codification in Part 272

EPA uses 40 CFR part 272 for codification of the decision to authorize

LDEQ's program and for incorporation by reference of those provisions of its Statutes and regulations that EPA will enforce under sections 3008, 3013, and 7003 of RCRA. Therefore, EPA is reserving amendment of 40 CFR part 272, subpart L until a later date.

Compliance with Executive Order 12866

The Office of Management and Budget has exempted this rule from the requirements of Section 6 of Executive Order 12866.

Certification Under the Regulatory Flexibility Act

Pursuant to the provisions of 4 U.S.C. 605(b), I hereby certify that this authorization will not have a significant economic impact on a substantial number of small entities. This authorization effectively suspends the applicability of certain Federal regulations in favor of Louisiana's program, thereby eliminating duplicative requirements for handlers of hazardous waste in the State. This authorization does not impose any new burdens on small entities. This rule, therefore, does not require a regulatory flexibility analysis.

DEPARTMENT OF THE INTERIOR**Bureau of Land Management****43 CFR Public Land Order 7098**

[AZ-930-1430-01; AZA-28652]

Partial Revocation of Presidential Proclamation of March 21, 1917; Arizona

AGENCY: Bureau of Land Management, Interior.

ACTION: Public Land Order.

SUMMARY: This order partially revokes the Presidential Proclamation of March 21, 1917, insofar as it affects 375.74 acres of public land withdrawn for classification purposes. The withdrawal is no longer needed, and the revocation is needed to permit disposal of the land. This action will open the land to surface entry and nonmetalliferous mining, unless closed by overlapping withdrawals or temporary segregations of record. The land has been and will remain open to metalliferous mining and mineral leasing.

EFFECTIVE DATE: December 7, 1994.

By virtue of the authority vested in the Secretary of the Interior by section 204 of the Federal Land Policy and Management Act of 1976, 43 U.S.C. 1714 (1988) as amended, it is ordered as follows:

1. The Presidential Proclamation of March 21, 1917, which withdrew land for classification purposes, is hereby revoked insofar as it affects the following described land:

Gila and Salt River Meridian

T. 1 N., R. 15 E.,

Sec. 31, lots 1 to 4, inclusive, N $\frac{1}{2}$ NE $\frac{1}{4}$, and E $\frac{1}{2}$ W $\frac{1}{4}$.

The area described contains 375.74 acres in Gila County.

2. At 10 a.m. on December 7, 1994, the land will be opened to settlement, location, sale, or entry under the public land laws, subject to valid existing rights, the provisions of existing withdrawals, other segregations of record, and the requirements of applicable law. All valid applications received at or prior to 10 a.m. on December 7, 1994, shall be considered as simultaneously filed at that time. Those received thereafter shall be considered in the order of filing.

3. At 10 a.m. on December 7, 1994, the land will be opened to location and entry under the United States nonmetalliferous mining laws, subject to valid existing rights, the provisions of existing withdrawals, other segregations of record, and the requirements of applicable law. Appropriation of any of the land described in this order under the general mining laws prior to the date and time of restoration is unauthorized. Any such attempted appropriation, including attempted adverse possession under 30 U.S.C. 38 (1988), shall vest no rights against the United States. Acts required to establish a location and to initiate a right of possession are governed by State law where not in conflict with Federal law. The Bureau of Land Management will not intervene in disputes between rival locators over possessory rights since Congress has provided for such determinations in local courts.

Dated: October 21, 1994.

Bob Armstrong,

Assistant Secretary of the Interior.

43 CFR Public Land Order 7099

[ID-943-1430-01; IDI-15685 01]

Partial Revocation of Geological Survey Order Dated May 19, 1950; Idaho

AGENCY: Bureau of Land Management, Interior.

ACTION: Public Land Order.

SUMMARY: This order revokes a Geological Survey order insofar as it affects 74.98 acres of public land withdrawn for the Bureau of Land Management's Powersite Classification No. 408. The land is no longer needed for this purpose, and the revocation is needed to permit disposal of the land through exchange. This action will open the land to surface entry. The land has been and will remain open to mining and mineral leasing.

EFFECTIVE DATE: December 7, 1994.
