RCRA REVISION CHECKLIST 49

Identification and Listing of Hazardous Waste;
Treatability Studies Sample Exemption
53 FR 27290-27302
July 19, 1988
(Non-HSWA Cluster V)

Note: The standards addressed by 261.4(e) and (f) are less stringent than existing Federal requirements; thus, authorized States are not required to adopt them. EPA strongly encourages States, however, to do so to facilitate evaluating remediation alternatives for CERCLA clean-ups and the RCRA Corrective Action Program. This rule will also speed research and development for treatment alternatives to land disposal and waste minimization, recycling, and reuse.
