## RCRA REVISION CHECKLIST 70

## Changes to Part 124 Not Accounted for by Present Checklists

48 FR 14146-14295, April 1, 1983  
 48 FR 30113-30115, June 30, 1983  
 53 FR 28118-28157, July 26, 1988  
 53 FR 37396-37414, September 26, 1988  
 54 FR 246-258, January 4, 1989  
 (Non-HSWA Cluster VI)

Note: Part 124 was affected by the deconsolidation of EPA's Consolidated Permit Regulations (48 FR 14146, April 1, 1983). In reprinting the Part 124 in the FR, a number of typographical errors and inadvertent omissions of paragraphs were made. On June 30, 1983 (48 FR 30113) and on January 4, 1989 (54 FR 246), these errors were corrected so that most of Part 124 again reads as it was originally printed in the July 1, 1982 CFR. Of the changes made by the April 1, 1983 article, only those which were not negated by the June 30, 1983 or January 4, 1989 articles are included in this checklist. Similarly, only those changes made by the June 30, 1983 or January 4, 1989 notices which are not merely corrections of errors in the April 1, 1983 article have been included in this checklist.

1. The LHWR 303.A-303.A.4, 323.A, B.2, B.2.b, and 703.C.3 are equivalent to the CFR citations as they pertain to RCRA. 40 CFR 124 sets forth standards based on many hazardous waste regulations. The LHWR has separate parts dealing with separate hazardous waste regulations.

<sup>3</sup> Checklist 54 made additional changes to 124.5(c)(1) and (3) at 53 FR 37410 (September 28, 1988). States which have adopted the provisions addressed by that checklist should have already made those changes. States which have not adopted the provisions addressed by that checklist should refer to that checklist when revising this section of code.

\* The LDEQ is equivalent for this citation. These methods are cited within the text where applicable. Louisiana cannot adopt by reference and for this reason does not wish to adopt and cannot adopt this section. However, the LDEQ is equivalent in that each place that the CFR cites these EPA methods, the Louisiana regulations also cites these methods.
