RCRA REVISION CHECKLIST 86

Removal of Strontium Sulfide from the List of Hazardous Wastes; Technical Amendment 56 FR 7567-7568 February 25, 1991 (RCRA Cluster I, Non-HSWA Rule)

Note: 1) Because of an error in the amendatory language in the rule (53 FR 43881, October 31, 1988, Revision Checklist 57) removing strontium sulfide from the list of hazardous wastes, this chemical was not removed from §261.33 or Part 261, Appendix VIII. This technical amendment corrects that error by removing strontium sulfide from the two lists. States which have not adopted the changes addressed by Revision Checklist 57, but intend to remove strontium sulfide from their lists of hazardous waste, are strongly encouraged to adopt these technical amendments at the same time the Revision Checklist 57 provisions are adopted. States already adopting the Revision Checklist 57 changes are encouraged to adopt the Revision Checklist 86 amendments as soon as possible.

2) This is a conditionally optional checklist. States choosing to not remove strontium sulfide from their hazardous waste lists should not adopt the changes addressed by this present checklist. However, those States which choose to remove this hazardous waste must adopt the changes addressed by Revision Checklist 86 to assure that strontium sulfide has been properly removed from the State's hazardous waste lists and appendices.

RCRA REVISION CHECKLIST 87

Organic Air Emission Standards for Process
Vents and Equipment Leaks; Technical Amendment
56 FR 19290
April 26, 1991
(RCRA Cluster I, HSWA Rule)

Note: The technical amendment addressed by this checklist corrects errors made in the Organic Air Emissions Final rule at 55 FR 25454 (June 21, 1990; Revision Checklist 79). States are strongly encouraged to adopt the corrections addressed by Revision Checklist 87 at the same time the Revision Checklist 79 provisions are adopted. States which have already adopted the Checklist 79 provisions are encouraged to adopt the corrections addressed by Revision Checklist 87 as soon as possible.

RCRA REVISION CHECKLIST 88

Administrative Stay for K069 Listing
 56 FR 19951
 May 1, 1991
 (RCRA Cluster I, non-HSWA)

Note: This May 1, 1991 (56 FR 19951) notice administratively stays the K069 listing so that the listing does not apply to slurries generated from pollution control devices that are intended to capture acid gases and are not dedicated chiefly to control of particulate air emissions. The stay remains in effect until further administrative action is taken. If EPA takes further action affecting this stay, EPA will publish a notice of the action in the Federal Register. A checklist is necessary because the code is affected. As this change narrows the scope of this listing, States are not required to adopt it; thus, this checklist has been designated as optional.

RCRA REVISION CHECKLIST 89

Revision to the Petroleum Refining Primary and Secondary
Oil/Water/Solids Separation Sludge Listings (F037 and F038)
56 FR 21955-21960
May 13, 1991
(RCRA Cluster I, HSWA Rule)

Note: This checklist amends the listings of F037 and F038 which were made at 55 FR 46354 (November 2, 1990; Revision Checklist 81). This rule revises and narrows these listings by 1) excluding non-contact, once-through cooling water from F037 and F038 listings and 2) not including, within the scope of the F038 listing, floats generated in or after aggressive biological treatment units. States wishing to adopt this optional change are strongly encouraged to adopt this change at the same time the Revision Checklist 81 provisions are adopted.

RCRA REVISION CHECKLIST 90

Mining Waste Exclusion III
 56 FR 27300-27330
 June 13, 1991
 RCRA Cluster I

Notes: 1) This is the third revision to the mining waste exclusion, with the two previous revisions addressed by Revision Checklist 65 (54 FR 36592; September 1, 1989) and Revision Checklist 71 (55 FR 2322; January 23, 1990). As such, states which have not yet been authorized for these checklists are encouraged to apply for Revision Checklist 90 at the same time the provisions in Revision Checklists 65 and 71 are applied for. States already authorized for Revision Checklists 65 and 71 requirements are encouraged to adopt the corrections addressed by Revision Checklist 90 as quickly as possible.

2) In the FR notice addressed by this checklist, a series of appendices follows the change made to 40 CFR 261.4(b)(7). These appendices were not included in this checklist because they will not appear in the Code of Federal Regulations and because the subjects of these appendices are the Public Comments on EPA's Report to Congress and the Notice of Data Availability.

RCRA REVISION CHECKLIST 91

Wood Preserving Listings

56 FR 27332-27336

June 13, 1991

(RCRA Cluster I, HSWA/Non-HSWA Rule)

Notes: 1) This Revision Checklist addresses an administrative stay of three wood preserving waste listings (F032, F034, and F035) made at 55 FR 50450 (December 6, 1990; Revision Checklist 82). Certain drip pad management standards, the inclusion of past users of chlorophenolic formulation in the listing description for certain F032 wastes, and the scope of waste water with respect to wastes that do not come into contact with preservative are also being stayed. EPA considers that both the F032 listing and the new Subpart W drip pad standards (when applied to the management of F032 wastes) are based on HSWA authority. This administrative stay defers EPA's implementation and enforcement of the HSWA-based requirements. On the other hand, the listings of F034 and F035, and the Subpart W drip pad standards that govern the management of these wastes, are considered to be based on pre-HSWA authority. For unauthorized States, the effect of this stay will also be to defer the EPA's implementation and enforcement of the F034 and F035 provisions. In authorized States, however, the non-HSWA requirements will not be applicable until the State modifies its program and obtains approval for the revisions from EPA.

2) States may elect to adopt wood preserving waste regulations with more stringent effective dates than those announced in this administrative stay. For this reason, Revision Checklist 91 is optional.

strative action is taken	265.443(a)(4)	'2805.A.4	x		
--------------------------	---------------	-----------	---	--	--

1 Note the Federal Register addressed by this checklist incorrectly refers to 261.31 rather than 261.31(a) as the place where the list of hazardous wastes from non-specific sources can be found. Revision Checklist 81 redesignates 261.31 as 261.31(a) and adds 261.31(b).

2 There is a typographical error in the FR (page 22336); "264.572(a)(4)" should be "264.573(a)(4)." Because of this, the administrative stay for this paragraph does not appear in the July 1, 1991 CFR.

RCRA REVISION CHECKLIST 92

Wood Preserving Listings; Technical Corrections
 56 FR 30192-30198
 July 1, 1991
 (RCRA Cluster II, HSWA and Non-HSWA provisions)

Notes: 1) The rule addressed by this checklist makes technical corrections to the Wood Preserving listing rule (55 FR 50450; December 6, 1990; Revision Checklist 82). States are strongly encouraged to adopt these technical corrections at the same time the Revision Checklist 82 provisions are adopted. Those States that have already adopted the Revision Checklist 82 provisions should adopt Revision Checklist 92 as soon as possible.

2) Note that on June 13, 1991 (56 FR 27332), an administrative stay was published affecting the December 6, 1990 (55 FR 50450; Revision Checklist 82) final rule. Because the Federal code was changed, a checklist was developed, Revision Checklist 91. The changes addressed by that checklist are all optional.

PART 270 - EPA ADMINISTERED PERMIT PROGRAMS:
THE HAZARDOUS WASTE PERMIT PROGRAM

SUBPART B - PERMIT APPLICATION

SPECIAL PART B INFORMATION REQUIREMENTS FOR DRIP PADS

8 redesignate the Section 270.22 introduced at 55 FR 50450 as Section 270.26	270.26	532	EQ	
change "264.572 to "264.573"	270.26(c)	532.A.3	EQ	
change "264.572" to "264.573"	270.26(c)(14)	532.A.3.n	EQ	
change "264.571" to "264.573"	270.26(c)(15)	532.A.3.o	EQ	
change "264.573(a)" to "264.575(a)"	270.26(c)(16)	532.A.3.p	EQ	

- 1 Revision Checklist 82 originally introduced §261.35 into the code. This technical correction makes extensive formatting and wording changes to 261.35(b). Thus, the Federal requirement description summarizes the requirements rather than the changes.
- 2 Although the Federal Register for this technical correction contains the text of the introductory paragraph of §262.34, i.e., 262.34(a), no revisions were made to this paragraph and, as such, it has not been included in this checklist. Also, as this technical correction makes extensive changes to this section of code, the Federal requirement description summarizes the requirements rather than the changes.
- 3 By redesignating 262.34(a)(3) as 262.34(a)(2), the text of the previous 262.34(a)(2) is effectively deleted. However, it is noted that most of that previous text has been incorporated into 262.34(a)(1) at 262.34(a)(1)(iii) and (iii)(A)-(B), also through this technical correction notice to the wood preserving listing rule.
- 4 The entire text of Subpart W of Part 264 was printed in the Federal Register for this checklist. This was done to demonstrate the numeration of each citation following the redesignation of sections to correspond with the order of the sections in Subpart W of Part 265. Numerous paragraphs within the redesignated sections have had no revisions made to them; these paragraphs have not been included in this checklist. Paragraphs that contain revisions, whether revisions to the wording of the paragraphs or to internal references within the paragraphs because of the renumbering, are addressed by this checklist.
- 5 Note that a typographical error occurs in the text of 264.571(b) in the Federal Register for this checklist; "in sufficient detail" should not be changed to "insufficient detail."

**RCRA REVISION CHECKLIST 92: Wood Preserving Listings;
Technical corrections (cont'd)**

FEDERAL REQUIREMENT	FEDERAL RCRA CITATION	ANALOGOUS STATE CITATION	STATE ANALOG IS:		
			EQUIV- ALENT	MORE STRIN- GENT	BROAD- ER IN SCOPE

- 6 Note that a typographical error occurs in the text of 264.571(b)(3) in the Federal Register for this checklist; "leak detection systems" should not be changed to "lead detection systems."
- 7 Note that a typographical error occurs in the text of 264.573(a)(5) in the Federal Register for this checklist; "daily perations" should be "daily operations" as introduced into the code by Revision Checklist 82 (55 FR 50450).
- 8 Note that the Boilers and Industrial Furnaces rule (56 FR 7134; February 21, 1991; Revision Checklist 85) also placed its specific Part B information requirements at 270.22 inadvertently displacing the wood preserving requirements.
