Remarks of the Attorney General

LAC 33:V.3001.B.3 is more stringent than 40 CFR 266.100(b)(3) because LDEQ does not acknowledge conditionally exempt small quantity generators. If a person generates "greater than 100 kg but less than 1000 kg" in this state, the generator is the equivalent of a large quantity generator and would follow the more stringent regulations for LQG.

OO. [OPTIONAL: This is a reduced requirement.] State statutes and regulations provide for secondary materials from mineral processing to be co-processed with normal raw materials in beneficiation operations which generate Bevill exempt wastes, without changing the exempt status of the resulting Bevill waste, provided certain conditions are met as indicated in Revision Checklists 167 E and 179.

Federal Authority: RCRA §3001; 40 CFR 261.4(b)(7) as amended May 26, 1998 (63 FR 28556) and May 11, 1999 (64 FR 25408).

**Remarks of the Attorney General**

LAC 33:V.3001.B.3 is more stringent than 40 CFR 266.100(b)(3) because LDEQ does not acknowledge conditionally exempt small quantity generators. If a person generates "greater than 100 kg but less than 1000 kg" in this state, the generator is the equivalent of a large quantity generator and would follow the more stringent regulations for LQG.

**XIII. CORRECTIVE ACTION**

H.[OPTIONAL: This is a reduced requirement.] State statutes and regulations contain provisions exempting cleanup only remediation waste management sites from 40 CFR 264.101 facility-wide corrective action as indicated in Revision Checklist 175.

Federal Authority: §§2002(a) and 3004; 40 CFR 264.1(j) intro, 264.101(d), and 270.230(e)(1) as

amended November 30, 1998 (63 FR 65874).

Remarks of the Attorney General

The appeal process for environmental issues allows facility to be granted a de novo review of the Secretary's action to the nineteenth judicial court. Facilities cannot commence construction until the appeal process is final. The period of notice for environmental issues is thirty (30) days, the state does not allow any additional time.

*[Special Guidance Note for AG Entry Section XV (EE): Revision Checklist 121 added 40 CFR 264, Subpart S addressing Corrective Action Management Units (CAMUs) and Temporary Units. The rule addressed by that checklist limited the use of CAMUs and Temporary Units to remedies under 40 CFR 264.101 or RCRA §3008(h) (corrective action). The rule addressed by Revision Checklist 175 expands the availability for use of these units to permitted facilities that are not subject to 40 CFR 264.101. States may be authorized for Revision Checklist 175 without being authorized for Revision Checklist 121 if the authorization, relative to the use of CAMUs and Temporary Units, is limited to permitted facilities that are not subject to 40 CFR 264.101. This limitation needs to be addressed in Section XV (EE) of the Attorney General's Statement. At that entry, the State should cite its analogs to 40 CFR 260.10 ("disposal facility",*

"landfill", "miscellaneous unit", and "remediation waste"), 264.552(b)-(h), 264.553(b)-(g), 265.1(b), 268.2(b), 270.2 ("disposal facility"), and 270.42, Appendix I. These other provisions need to be cited by the State and reviewed by the Region to assure that all of the design and operating requirements for CAMUs and Temporary Units are included in the State's regulations and authorized. In the "Remarks of the Attorney General", the State's Attorney General must include a statement that, relative to 40 CFR 264, Subpart S, the State is not seeking authorization for the corrective action uses of CAMUs and Temporary Units. If the State is also not authorized for Revision Checklist 17L (Corrective Action), the State should also limit the use, and in turn the authorization, of staging piles in a similar fashion.]

Remarks of the Attorney General

LAC 33:V.3001.B.3 is more stringent than 40 CFR 266.100(b)(3) because LDEQ does not acknowledge conditionally exempt small quantity generators. If a person generates "greater than 100 kg but less than 1000 kg" in this state, the generator is the equivalent of a large quantity generator and would follow the more stringent regulations for LQG.

II. [OPTIONAL: This is a reduced requirement.] State statutes and regulations stay the May 26, 1998 Phase IV Land Disposal Restriction treatment standards for metal-bearing hazardous wastes which exhibit the characteristic of toxicity, until EPA develops more consistent and comprehensive regulations for hazardous waste-derived fertilizers. In the interim, affected fertilizers are subject to the treatment standards that previously existed for toxic metals as specified on Revision Checklists 170 and 179.
