(add)

Benzene, 2-amino-1-methyl (o-Toluidine)

Benzene, 4-amino-1-methyl (p-Toluidine)

2,4-Toluenediamine

2,6-Toluenediamine

3,4-Toluenediamine

(change)

"Toluenediamine" to "toluenediamine, N.O.S."

RCRA REVISION CHECKLIST 19

not 1/6/88

Burning of Waste Fuel and Used Oil Fuel
in Boilers and Industrial Furnaces
50 FR 49164-49211
November 29, 1985

as amended on November 19, 1986, at 51 FR 41900-41904
and on April 13, 1987, at 52 FR 11819-11822
(HWA Cluster I)

Special Note on the Use of This Checklist

Used oil fuel standards at §266.40-44 are delegable to State programs although used oil is not specifically listed as a hazardous waste pursuant to Section 3001 of RCRA. This is because these regulations are promulgated pursuant to (1) the Used Oil Recycling Act (§3014(a) of RCRA) which directs EPA to regulate recycled used oil even if it is not a hazardous waste, and (2) the Superfund Amendments and Reauthorization Act of 1986 (SARA §205(j) adding RCRA §3006(h)). SARA §205(j) provides for delegation to States for used oil recycling standards even if used oil is not a listed waste or identified as a hazardous waste.

Note that the November 19, 1986 (51 FR 41900) Federal Register article referenced in the title did not affect the RCRA regulations. Instead it addresses issues surrounding the listing of used oil, which is disposed of, as hazardous. This article is referenced for convenience and completeness.

2 new constituents	Appendix VIII	HWMR- 7 PART II § 201	X		

Ethylene glycol monoethyl ether (Ethanol, 2-ethoxy)
2-Nitropropane (Propane, 2-nitro)

¹ 51 FR 6537 (February 25, 1986) and subsequent CFR volumes list this constituent in Appendix VII as 1,1,2-trichloro-1,2,2-trichfluoroethane; however, it is listed as 1,1,2-trichloro-1,2,2-trifluoroethane in §261.31 - Hazardous waste from non-specific sources. "...1,2,2-trichfluoro..." appears to be a misprint.

RCRA REVISION CHECKLIST 23

Generators of 100 to 1000 kg Hazardous Waste
