Note: This is a correction and clarification of 52 FR 46946 (December 10, 1987) addressed by Revision Checklist 45. This present checklist has been placed in non-HSWA Cluster IV because it corrects a checklist in that cluster. Because this cluster is already closed, States need to adopt this technical correction as soon as possible.

A June 22, 1989 (54 <u>FR</u> 26198) final rule amended the preamble of the December 10, 1987 rule addressed by Revision Checklist 45. Because this was the only change made by this final rule, a checklist was not developed for it, nor was it incorporated into this present checklist.

In lieu of making the changes addressed by this checklist, a State may submit a certification by the State Attorney General that he/she interprets his/her State's existing regulations in the manner described in this rule. Such a simplified application is allowed because EPA is only clarifying current regulatory language, and the Agency assumes that these requirements are already in effect in most States. If a State Attorney General cannot certify that he/she interprets his/her State's existing regulations in the manner described in this rule, the State's regulations must be amended to reflect this clarification.
