Re: HSWA Statutory Checklist and Report on Regulatory Changes

Dear Lynn:

Enclosed is an updated HSWA statutory checklist, in accordance with the Oklahoma Authorization Strategy. An up-to-date copy of the Oklahoma Controlled Industrial Waste Disposal Act is also enclosed.

Also in accordance with that Authorization Strategy, be advised that the only regulatory revisions applicable to and necessary for the upcoming non-HSWA Cluster IV and HSWA Cluster I authorization application involve the "updating" of the incorporation-by-reference provisions. The State will now incorporate 40 CFR Parts 260-266, 268 and 270 through July 1, 1988, except for provisions relating to Liability Coverage and Permit Modification, which are incorporated through September 1, 1988 and September 28, 1988, respectively, in order to take advantage of more recent amendments deemed especially helpful to the program. These "updated" incorporation-by-reference regulations (Rules 200, 211, and 212) have been adopted by the State Board of Health and are expected to become effective on May 10, 1989, barring unforeseen action by the Oklahoma State Department of Libraries, which officially publishes them. I have enclosed a copy of these single-page amendments for your reference.

Please call me if you have any questions. In the meantime, we will be working on the program revision application. I look forward to seeing you in Fort Worth in late May, if not before.

Sincerely,

Jimmy D. Givens
Staff Attorney

Statutory Element	RCRA [HSWA] Cite	Coverage Y/N	State Cite	Comment
RCRA §3001				
1. Authority to regulate the generation, transportation, treatment, storage and disposal of hazardous waste produced by generators of between 100-1000 kg/month.	§3001(d) (Sec. 221)	Y	1-2002(I) 1-2004(B) 1-2005(A),(C)	See also, generally, 1-2004 and 1-2005.2(C).
*2. Authority to regulate the generation, transportation, treatment, storage and disposal of hazardous waste produced by generators of less than 100 kg/month.	§3001(d) (Sec. 221)	Y	Same as above.	Same as above.
3. <u>Optional</u> : Authority to allow generators of between 100-1000 kg/mo to store hazardous waste on-site for up to 180 days without a permit or interim status. On-site storage of no more than 6,000 kgs may occur for up to 270 days without a permit or interim status if the generator must ship or haul the waste over 200 miles.	§3001(d) (Sec. 221)	Y(?)	Same as above.	1-2009.1 may conflict.

NOTE: All citations are to Sections of the Oklahoma Controlled Industrial Waste Disposal Act, Title 63 of the Oklahoma Statutes, Section 1-2001 et seq., as amended through 1988.

Statutory Element	Cite	Y/N	Cite	Comment
-------------------	------	-----	------	---------

4. Required if a State has a delisting mechanism: in any delisting action, authority to consider factors (including additional constituents) other than those for which the waste was listed, if the State has a reasonable basis to believe that such additional factors could cause the waste to be a hazardous waste.	§3001(f)(1) [Sec. 222]	N/A	N/A	No state delisting.
--	---------------------------	-----	-----	---------------------

5. Required if State has delisting authority: State may not allow new temporary delistings without prior notice and comment, absent good cause. Prior temporary delistings lapse if not made final by November 8, 1986.	§3001(f)(2) [Sec. 222]	N/A	N/A	No state delisting.
---	---------------------------	-----	-----	---------------------

RCRA §3002

6. Authority to require generators to submit reports and manifest certifications regarding efforts taken to minimize the amounts and toxicity of waste generated.	§3002 [Sec. 224]	Y	1-2004 (8)	
---	---------------------	---	------------	--

RCRA §3004

7. Authority to promulgate rules requiring evidence of financial responsibility for corrective action on and off-site.	§3004(a)(6) [Sec. 208]	Y	1-2004, 2(8)	See also 1-2012.3(A)

Statutory Element

8. Authority to prohibit the land disposal of any hazardous waste. Land disposal includes, but is not limited to, landfills, surface impoundments, waste piles, deep injection wells, land treatment facilities, salt dome and bed formations and underground mines or caves. Deep injection well means a well used for the underground injection of hazardous wastes other than a well to which §7010(a) of RCRA applies.

We believe that States already have this authority through their authority to regulate the treatment, storage and disposal of hazardous waste. However, if a State believes it needs new authority to ban a waste from land disposal, we strongly recommend that the State seek the broad statutory authority described above. This recommendation is based primarily on §3004(r) of RCRA; Section 3004(p) requires EPA to decide whether to prohibit one or more methods of land disposal for every listed or identified hazardous waste by 1990. Thus, unless a State has statutory authority to ban the land disposal of any such hazardous waste, it may need to amend its statute repeatedly as EPA decides the status of each waste.

If a State decides not to seek or cannot obtain such broad authority, the following list breaks down the various HSWA provisions relating to land disposal bans that States will need to adopt in the coming months and years:

- *A. Authority to prohibit the disposal of any hazardous waste in salt dome and bed formations, underground mines, or caves until a §3005(c) permit is issued. In addition, authority to prohibit disposal of any bulk liquid hazardous waste in salt dome and bed formations, underground mines, or caves until

* Authority over bulk liquid hazardous waste may be under a hazardous waste or underground injection control program as long as all RCRA requirements are met.

(1) It is determined, after notice and opportunity for hearings on the record in the affected area, that such placement is protective of health and the environment and (2) performance and permitting standards for such facilities are adopted.

B. Authority to prohibit landfilling of bulk or non-containerized liquid hazardous waste. §3004(c) [Sec. 201]

C. Authority to promulgate regulations that minimize the landfilling of containerized liquid hazardous waste and free liquids in containerized hazardous wastes, and prohibit the landfilling of liquids absorbed in materials that biodegrade or release liquids when compressed. §3004(c) [Sec. 201]

*E. Authority to prohibit the land disposal, including underground injection into deep injection wells, of the following wastes (including the authority to set more stringent concentration levels for categories A-E):

- (A) Liquid hazardous wastes, including free liquids associated with any solid or sludge, containing free cyanides at concentrations greater than or equal to 1000 mg/l.
- (B) Liquid hazardous wastes, including free liquids associated with any solid or sludge, containing the following metals

* Authority regarding deep injection wells may be under the State's hazardous waste authority or its underground injection control authority as long as RCRA requirements are met.

Statutory Element	RCRA [HSWA] Cite	Coverage Y/N	State Cite	Comment
-------------------	------------------	--------------	------------	---------

(or elements) at concentrations greater than or equal to those specified below:

- (i) arsenic and/or compounds (as As) 500 mg/l
- (ii) cadmium and/or compounds (as Cd) 100 mg/l
- (iii) chromium VI and/or compounds (as Cr VI) 500 mg/l
- (iv) lead and/or compounds (as Pb) 500 mg/l
- (v) mercury and/or compounds (as Hg) 20 mg/l
- (vi) nickel and/or compounds (as Ni) 134 mg/l
- (vii) selenium and/or compounds (as Se) 100 mg/l
- (viii) thallium and/or compounds (as Th) 130 mg/l
- (C) Liquid hazardous waste having a pH less than or equal to two (2.0)
- (D) Liquid hazardous wastes containing polychlorinated biphenyls at concentrations greater than or equal to 50 ppm
- (E) Hazardous wastes containing halogenated organic compounds in total concentration greater than or equal to 1000 mg/kg
- (F) solvents
- (G) dioxins

Statutory Element

*F. Authority to prohibit the land disposal of any hazardous waste which is prohibited from land disposal under §3004(g) of RCRA.

9. Optional: Authority to waive, until November 8, 1987, a prohibition on land disposal of certain hazardous wastes (i.e., those designated in #10E above) that might otherwise apply to the disposal of contaminated soil or debris from CERCLA §104 or §106 actions or RCRA corrective actions.

N/A

N/A

**10. Authority to prohibit disposal of nonhazardous liquids in Subtitle C landfills unless (1) the only reasonable alternative is disposal in a landfill or unlined impoundment, whether or not subject to Subtitle C, that contains or may contain hazardous waste and (2) disposal will not endanger an underground source of drinking water.

Y

1-2004.2(1)

* Because of legal problems with incorporating future EPA regulations by reference, States pursuing this option should seek only the authority to ban wastes prohibited by EPA rather than seeking to incorporate by reference any EPA land disposal prohibition. As discussed above, we advise states to seek authority to ban the land disposal of any hazardous waste. However, some states may wish to seek authority to ban land disposal of only those hazardous wastes for which EPA has prohibited land disposal.

**States should particularly note this requirement. Since many State statutes pertain only to hazardous waste, States are likely to need new authority to regulate the disposal of nonhazardous waste at Subtitle C facilities.

Except to the extent
Section 1-2004.2(5)
might be read to
broadly enough to
authorize this.

§3004(q)(2)(A)
[Sec. 204]

16. Optional: Authority to exempt petroleum coke containing hazardous waste from petroleum refining from regulation if it is to be burned for energy recovery unless the coke exhibits a characteristic of hazardous waste.

N

§3004(t)
[Sec. 205]

17. Authority to allow direct action against the insurer or corporate guarantor if an owner/operator is in bankruptcy or reorganization.

Y

1-2008(H)

Optional:

(A) Authority to allow an insurer to claim all rights and defenses available to the owner/operator.

Y

1-2008(H)(1)

(B) Authority to limit insurer liability to the liability amount provided as evidence of financial responsibility and by contractual agreement unless the owner/operator acted in bad faith.

Y

1-2008(H)(2)

§3004(u)
[Sec. 206]

*18. Authority to assure that permits issued after 11/8/84 require corrective action for releases of hazardous waste or constituents

Y

1-2012.3(A)

* Note: States must have authority to require corrective action for all solid waste management units, even though the only unit receiving a permit is a deep injection well. (This authority may be under a hazardous waste or underground injection control program as long as all RCRA requirements are met.)

RCRA (CMA) Cite Coverage Y/N State Cite Comment

Statutory Element

from any solid waste management unit at a facility, regardless of when the waste was placed in the unit.

19. Authority to require corrective action beyond a facility's boundary. Once EPA promulgates the regulations required by §3004(v), the state must have authority to include corrective action as a permit requirement.

Y
 1-2012.1(3)
 1-2012.3(A)

§3004(v)
 [Sec. 207]

Until then, a state may use corrective action orders as an alternative to imposing corrective action in a permit. Without some mechanism for requiring correction action beyond a facility's boundary, a state may not issue a RCRA permit.

20. Authority to assure that permitting standards for underground hazardous waste tanks, at a minimum, satisfy Section 9003, Subtitle I of RCRA, 42 USC 9003.

Y

§3004(w)
 [Sec. 207]

RCRA §3005

21. Optional: Authority to allow a facility to construct an approved TSCA facility for burning PCBs without first obtaining a RCRA permit. An owner/operator may file for a RCRA permit to burn hazardous waste after construction or operation of such a facility has begun.

N
 §3005(a)(3)
 [Sec. 211]

Statutory Element

22. Authority to review land disposal permits every five years and to modify them as necessary to assure compliance with State's analogue to RCRA §§3004, 3005 and to take into account improvements in technology. Y 1-2012.3(B)

§3005(c)(3) [Sec. 212]

23. Authority to issue permits containing any conditions necessary to protect human health and environment.

§3005(c)(3) [Sec. 212] Y 1-2004(23)
1-2012.3(B)

*24. Authority to require that (1) for land disposal facilities qualifying for Interim status prior to 11/8/84, Interim status terminates 11/8/85 unless a Part B application and certification of compliance with applicable ground-water monitoring and financial responsibility requirements are submitted by 11/8/85.

§3005(c),(e) [Sec. 213] Y 1-2004.2(7)

** (11) For land disposal facilities in existence on the effective date of statutory or regulatory amendments under the HSWA that require the facility to have a RCRA permit, Interim status terminates 12 months after the facility is first required to

Y 1-2004.2(7)

* Note that the state's analogue to Interim status must terminate automatically in these cases (whether the state's analogue is Part 265 type standards or permits). If a State statute or regulation would require any type of hearing to terminate the facility's operating authority, the State must amend its authority to delete that requirement for these provisions. (Interim status as used here means the state's analogue to Federal Interim status.)

**A-licable if State adopts optional authority in #25.

Statutory Element

obtain a permit, unless a Part B application and certification of compliance with applicable ground-water monitoring and financial responsibility requirements are submitted 12 months after the date the facility is first required to obtain a permit.

(iii) Interim status terminates for incinerator facilities by 11/8/89 unless the owner/operator submits a Part B application by 11/8/86.

(iv) Interim status terminates for any facility other than a land disposal or an incineration facility by 11/8/92 unless the owner/operator submits a Part B application by 11/8/88.

25. Optional: Authority to allow facilities to qualify for interim status if they (1) are in existence on the effective date of statutory or regulatory changes that render the facility subject to the requirement to have a permit and (2) meet notice and permit application requirements.

26. Authority to require that facilities may not qualify for interim status under the State's analogue to Section 3005(e) if they were previously denied a Section 3005(c) permit or for which authority to operate has been terminated.

RCRA §3018

*37. Authority to regulate listed or identified wastes which pass through a sewer system to a publicly owned treatment works (POTW) as necessary to adequately protect human health and environment.

Y 1-2004.2(6)

§3018(b)
[Sec. 246].

RCRA §3019

38. Authority to require permit applicants for landfills or surface impoundments to submit exposure information.

Y 1-2012.3(C)

§3019(a)
[Sec. 247].

39. Authority to make exposure and health assessment information available to the Agency for Toxic Substances and Disease Registry. (See CERCLA §104(1))

Y 1-2012.3(C)

§3019(b)(1)
[Sec. 247]

RCRA §§7002, 7003

**40. Optional: Authority to grant variances and exemptions that are no less stringent than allowed by Subtitle C of RCRA.

N

* Potential requirement: Depending on the result of reports EPA is required to prepare under §3018(a), EPA may impose regulations in the future addressing hazardous wastes passing through to a POTW. Such regulations, if adopted, may be under RCRA, the Clean Water Act or other authority, and may or may not be a State program requirement.

** Various HSWA provisions amend RCRA to allow EPA and the States if they wish - to grant variances and exemptions. In addition to those variances specifically authorized by statute, the HSWA allows EPA to develop regulations with variance provisions or to make case-by-case variance decisions. Unless a state is absolutely sure that it will never wish to grant a variance or exemption, we strongly recommend states obtain the above authority.

The States' variance procedures and decision criteria must be no less stringent than EPA's.

\$7002(g),
\$7003(a)(B)(2)

41. Optional: Neither the State nor citizens may bring action against common carriers for imminent hazards arising after delivery of the shipment to the consignee, provided the carrier exercised due care when handling the work.

RCRA §1004

*42. Authority to regulate hazardous waste that is radioactive except to the extent that the waste is source, special nuclear, or byproduct material as defined by the Atomic Energy Act of 1954, as amended. (68 Stat. 923)

\$1004(27)

Y 1-2002(1)
1-2005

See also A.G. Statement dated December 22, 1988, included in non-HSWA Cluster III Application.

* This is not a HSWA requirement. Until recently there had been some controversy about the scope of EPA's RCRA authority over radioactive waste. EPA has now determined that hazardous wastes are subject to RCRA if they are mixed with source, special nuclear or byproduct material even though source, special nuclear, or byproduct material itself is not subject to RCRA. Thus, States will need to review their authority to ensure that only source, special nuclear, or byproduct material is excluded from their hazardous waste jurisdiction.
