

RESTRICTED AREA

**DO NOT ENTER
AUTHORIZED PERSONNEL ONLY**

The U.S. Environmental Protection Agency (EPA) continues to implement the Operable Unit (OU) 2 and OU4 remedial actions at the Tar

Creek Superfund Site. Construction equipment is being used in the removal of source material at the site that could present safety hazards to unauthorized personnel.

Inquiries have been made about job opportunities. If you are interested in seeking job opportunities to work on these projects, please **DO NOT ENTER** any of the job site areas where construction or cleanup activities are in progress. For information about job opportunities, please contact Terry McElveen at 918.674.1164 or Terry.McElveen@ch2m.com. Your cooperation is greatly appreciated!
