Regional Tribal Operations Committee Meeting
October 21, 2013
Lemoore, CA

	Requested By:	Task	Who	Status	Response
1	Yerington Paiute Tribe John Mosley	The Yerington Paiute Tribe would like to request that the Superfund Director respond to the tribe's letter of concerns about the Anaconda mine's undersized Fluid Management System that is adding to releases of contaminants to tribal trust lands including surface water in the Wabuska Drain. The tribe would also like to request that the NDEP respond to the tribe's letter of similar concerns and specifically the applications of state regulations for system capacity and related calculations regarding storm water events that are used for operation of the Fluid Management System.	Director of Superfund Division, Enrique Manzanilla	Complete.	<p>EPA responded to former Chairman Stevens in August of 2013; that letter has recently been provided to current Chairman Howard for her review. If the Tribe has outstanding questions for the EPA following review of the August 2013 letter, please contact David Seter at 415-972-3250.</p> <p>Regarding follow up from NDEP, the Tribe is recommended to speak directly with David Gaskin who will be present at the Conference on Wednesday, October 23. Alternately, David Seter may be of assistance in facilitating a meeting with Mr. Gaskin's office on this topic.</p>
