**Final  
Environmental Impact Statement  
for Designation of an Ocean Dredged Material Disposal Site  
Offshore of Guam**

**MARCH 2010**

*Prepared for:*  
*United States Environmental Protection Agency*

## ABSTRACT

This Environmental Impact Statement (EIS) covers the proposed designation of the Northwest Ocean Dredged Material Disposal Site (ODMDS) Alternative as a permanent site for the ocean disposal of dredged material. This ocean disposal site will be available as an alternative for placement of dredged material when no practicable upland placement or viable beneficial reuse options are available.

Use of the Northwest ODMDS Alternative is not anticipated to cause significant long-term adverse environmental impacts beyond the site boundaries. Temporary physical impacts to benthos are expected within the site by sediment disposal but the environmental effects are not anticipated to extend beyond the site boundaries. Water quality impacts will be localized, short-term and negligible. The few identified potentially adverse impacts are not anticipated to be irreversible or to involve any irretrievable commitment of resources. As part of the site designation process, the United States Army Corps of Engineers (USACE) and United States Environmental Protection Agency (USEPA) have developed a Site Monitoring and Management Plan (SMMP) included in an appendix to this EIS that will ensure that environmental impacts remain insignificant.

The alternatives considered in this EIS are: 1) No Action, 2) North ODMDS Alternative, and 3) Northwest ODMDS Alternative. The Preferred Alternative identified in this EIS is the Northwest ODMDS Alternative. This decision is based on the absence of significant long-term environmental impacts beyond the site boundaries, the greater potential for adverse environmental impacts (particularly air quality) associated with the other alternatives, and the demonstrated need for continued availability of an ocean disposal site for dredged material.

**ENVIRONMENTAL IMPACT STATEMENT  
FOR DESIGNATION OF AN OCEAN DREDGED MATERIAL DISPOSAL SITE  
OFFSHORE Of GUAM**

**Table of Contents**

<b>ACRONYMS AND ABBREVIATIONS .....</b>	<b>ix</b>
<b>EXECUTIVE SUMMARY .....</b>	<b>ES-1</b>
<b>1.0 PURPOSE OF AND NEED FOR ACTION .....</b>	<b>1-1</b>
1.1 Introduction .....	1-1
1.2 Purpose For Action.....	1-3
1.3 Need For Action.....	1-3
1.3.1 Beneficial Reuse .....	1-3
1.3.2 Dewatering Sites .....	1-5
1.4 NEPA Process.....	1-5
1.4.1 Public Involvement .....	1-5
1.4.2 Notice of Intent (NOI) and Scoping Period.....	1-5
1.4.3 DEIS Status Meeting.....	1-8
1.4.4 Draft EIS (DEIS) / Coastal Zone Management (CZM) Consistency Review .....	1-9
1.4.5 Final EIS (FEIS) / Proposed Rule .....	1-9
1.4.6 Final Rule / Site Designation.....	1-9
1.5 Scope of the EIS.....	1-9
1.6 Cooperating Agencies And Agency Consultation.....	1-10
1.7 Regulatory Framework .....	1-10
<b>2.0 ALTERNATIVES.....</b>	<b>2-1</b>
2.1 ODMDS Designation Process .....	2-1
2.2 Alternative Development .....	2-3
2.2.1 Zone of Siting Feasibility Methods .....	2-3
2.2.2 Economic Feasibility Distance .....	2-5
2.2.3 Zone of Siting Feasibility (ZSF) Conclusions .....	2-6
2.2.4 Identification of a Specific ODMDS Alternative Within Each ZSF Study Area.....	2-6
2.3 Alternatives Considered and Dismissed from Further Consideration .....	2-8
2.3.1 Mariana Trench .....	2-8
2.3.2 Off-island upland placement .....	2-8
2.3.3 Interim ODMDS .....	2-8
2.4 North Alternative ODMDS .....	2-8
2.4.1 Description of the North ODMDS .....	2-8
2.4.2 Fate of Dredged Material Discharged at the North ODMDS.....	2-9
2.5 Northwest Alternative ODMDS .....	2-9
2.5.1 Description of the Northwest ODMDS.....	2-9
2.5.2 Fate of Dredged Material Discharged at the Northwest ODMDS .....	2-11
2.6 No Action Alternative .....	2-12

2.7	Compliance with USEPA Criteria .....	2-12
2.7.1	General Criteria (40 CFR 228.5) .....	2-13
2.7.2	Specific Site Selection Criteria (40 CFR 228.6) .....	2-14
