Review of the Status of the In Utero Through Lactational Assay in the
Endocrine Disruptor Screening Program

Wednesday, February 27, 2007

- 8:30 A.M. Introduction and Identification of Panel Members -
Steven G. Heeringa, Ph.D. (FIFRA SAP Chair)
- 8:40 A.M. Administrative Procedures by Designated Federal Official -
Bill Wooge, Office of Science Coordination and Policy, EPA
- 8:45 A.M. Specific Charge 2: Please comment on the basis for supporting
continued development and validation of an *in utero* through lactational
screening assay using Protocol C in the EDSP Tier-1 battery.
- 9:45 A.M. Specific Charge 3: Please comment on the basis for supporting
development and validation of a revised Protocol C or alternative
Protocols A or B or some other protocol for an *in utero* through lactational
screening assay in the EDSP Tier-1 battery. What are the strengths and
weaknesses of a revised Protocol C or alternative protocols and would this
revised *in utero* through lactational screening assay be considered an
alternative assay, if so, replacing what assays, or an additional assay in
the EDSP Tier-1 battery?
- 10:45 A.M. BREAK
- 11:00 A.M. Specific Charge 4: Please comment on the basis for supporting
suspension of the present course for development and validation of the *in
utero* through lactational assay as an EPA screening assay in the EDSP.
What research would be useful in developing an *in utero* through
lactational assay that would support reconsideration of the bioassay as a
screen in the Tier-1 battery?
- 12:00 P.M. LUNCH
- 1:15 P.M. Continuation of Questions to the Panel (as needed)
- 2:30 P.M. Adjournment
