Announcement of Extension of Comment Period for the Notice of Availability of Documents for the Response to the Remands in the Ozone Transport Cases Concerning the Method for Computing Growth for Electric Generating Units

At the request of the State of Illinois and of the Utility Air Regulatory Group, the U. S. Environmental Protection Agency is extending the public comment period by 15 days, from September 4, 2001 to September 19, 2001, for its Notice of Availability of Documents for the Response to the Remands in the Ozone Transport Cases Concerning the Method for Computing Growth for Electric Generating Units (66 FR 40609; August 3, 2001). A Federal Register notice announcing the extension will be published as soon as practicable.
