Re: Replacement of the February 13, 2009 Deconstruction Plan Amendment – Cleaning and Clearance of Stairway B Floors 1 – 19, 130 Liberty Street, New York, New York

Dear Mr. Gerdtz:

This is to inform you that the U.S. Environmental Protection Agency (EPA) has completed its review of the February 27, 2009 "Replacement of the February 13, 2009 Deconstruction Plan Amendment – Cleaning and Clearance of Stairway B Floors 1 – 19" submitted by TRC Environmental Corporation (TRC) on behalf of the Lower Manhattan Development Corporation for 130 Liberty Street in lower Manhattan.

Based on our review, and in consultation with the New York State Department of Labor (NYSDOL) and the New York City Department of Environmental Protection (NYCDEP), EPA accepts the above-referenced proposed replacement submission.

EPA's review is not intended as a review and/or acceptance of structural engineering and safety matters or requirements for the protection of worker safety and health or for fire protection and safety at 130 Liberty Street. EPA is relying on the New York City Department of Building's, the U.S. Department of Labor Occupational Safety and Health Administration's and the New York City Fire Department's expertise in these areas, respectively.

EPA will continue to work with our regulatory partners to monitor the 130 Liberty Street activities throughout the execution of the project.

Sincerely,
